Saigon Domestic Service in Vietnamese 0500 GMT 15 Mar 75 SG

[Text] The office of the RVN National Assembly is indignant at the extremely serious violation of the Paris agreement by the communists, who are launching a general offensive throughout the four military regions.

Moved by the peoples extreme suffering and worried at the prospect of an endless massacre because the communists are massively rushing into the south North Vietnamese general reserve forces and all types of the most sophisticated weapons provided by communist countries, the office of the RVN National Assembly hereby declares that the communists are beginning the most serious period of aggression since the signing of the Paris agreement. Their serious offensive was prompted by their confidence that they could take advantage of the passiveness of the allied countries in the free world which are responsible for insuring the implementation of the Paris agreement.

The office of the RVN National Assembly declares:

1. Together with all of our people, to again denounce the crimes of communist North Vietnam and its tool in the south which are hardheartedly sabotaging the peaceful life of the southern people;
2. Together with all of our people, to call on the countries which cherish peace, freedom and democracy to vigorously intervene to force the communist side to end all its massacre;
3. Together with all our people, to call on our allied countries to support the fight for self-defense by the RVN Armed Forces and people and to assist the RVN Government in providing aid to the tens of thousands of war victims; and
4. Together with all our people, to resolutely mobilize all our efforts to oppose aggression and protect freedom and democracy.
