Dear Mom & Dad,

Enclosed is the \$15.00 I said I would send for the check you paid for. Please don't pay for any more of my bills, if you receive one in the future - just mail it to me & I'll take care of it. I most definitely do not want to owe anyone money when I come home.

Glad to hear Doris had a girl finally - and also that everything is going well for her. Had a good time last - but her things started getting better.

The only thing new with me is that I'm now working in the communications orderly room - cause the clerk where place I'm taking got a broken arm, plus him & the chief clerk didn't get along. - so here's where I'm staying till I leave, I think.

Oh, Dad would you take those Sanson speakers down to a shop & sell them for me - not less than \$100 each,

Then would you mail me the money? What I'm doing is competing all my money until two or three months before I leave here - then buy everything that I want, so that it will arrive home a month before me. Why I want the speakers sold is because I'm going to buy all different equipment.

Dad, have you ^{yet} still got Tom, have you lost any more weight since I last wrote.

I tell it that I had put you both in the best of spirits. The car is in good condition I hope, it's a good car.

Tell Tom hello for me.
I'll end here by saying all is well with me.
Take care

For Duke
