I was sorry to learn that you
could not stomach mama's
offering of food. I do hope you
got your lobster and enjoyed
it.

I assume that Mother and
Lois keep you fully informed
as to the news so that anything
I might write would be
superfluous.

We wait for your letters and
watch the news on radio and
hope that you will get home
earlier than now scheduled.

I trust that the information
on Chicago is what you
need. I have included some
letters you will probably
consider superfluous.

** Mother suggests that it
may be advisable for you
to write to Mrs. Gray.

Love from all
Dad

P. S.

Do you think it advisable
to mention that for your
first year of graduate studies
you had received a La Verne Hayes
Tuition Scholarship for the ^{school} year
1969/1970 and that during that year
you obtained your M.A. in
order to continue your studies
toward your doctorate the
College had offered ^{you} financial
assistance of \$3,794.00 for
the Autumn, Winter and Spring
sessions of 1970/1971? Your
being in the Army should
make you eligible for assistance
from the U.S. government.
