

1 FEB 22

I

Hi There,

How is everything in Carpentersville? Received your letter last night before I went to work and I was really happy to get it.

Thank you all for the package of magazines. We will be keeping close check on the mail until it arrives. Don't worry we will like them as long as they are English and "half pictures".

I've heard that you have been having some pretty rough weather. Boy I wish we could have some of it here. It's really beginning to get hot. Today it was 105° in the shade. When I get back to Chicago it'll more than likely freeze in anything least then 70°

## II

I know what your husband must mean by taking the new position. Since I've been here they have put me with all types of responsibility. In a way it is nice that they have the confidence in me but it is a real headache.

If you think it is hard driving in snow you ought to try driving in sand. This is a real hard walking too. I'll take the snow anyday.

Boy what I wouldn't give for any kind of shoe above. These gyps and trucks are without any of those modern conveniences. If I get back to the States with any kidnap at all I'll be lucky!!

Well my interests vary a lot. I do like music. I enjoy ballads and instrumentals mostly, but I do like popular. Except that Beatles & Rolling Stone, junk. When I was in grade school I played the trumpet, but nothing real good.

Also I enjoy sports of any kind. Especially football. Reading is something else I like.

Sounds like your whole family is very music that is very nice. I hope my two little nieces are the same ~~anyway~~ someday.

I like to get a real nice stereo setup up when I get out. Although

with the way some of these  
tape recorders are now.  
Maybe a good set of tapes  
would do the same job.

Boy I wish we could  
get some record players  
or good tapes over here  
because you can hardly  
pick up anything on the  
radios over here.

So far they are still  
working our peasants  
off over here. I have  
yet to get more than  
six hours sleep at one  
time. In fact we went  
to work last night at  
6:00 PM, got off at 7:17 and  
have to be back at  
work at 6:17 again to-  
night.

Someone was trying to

J

penetrate our defenses last night. Another dogman and I spotted him once and we chased through a rice paddy. We got a few shots off, but I think we did hit him. So far they haven't caught him.

I'm really fed up about being here as the Lonkissa and the feeling of being forgotten. Also we would really like to get our hands and the demonstrators. Then they would know why we are here.

Well I'm going to end now because I have to get ready for work. Say hello to everyone and there for me. Write when you

VI

have a chance and I'll  
answer right away. Goodbye  
and take care.

Jenny Webb

P.S. Thanks for writing.

8 FEB 66

I

Dear Mrs. Vellegas

Received another letter from you the other day and was very glad to hear from you. Today was the first chance I had to write though.

It certainly sounds like your weather. Jack him is pretty sure but I would trade if right now for this heat. Besides we have been having a sand storm for quite a few days now. You see that we have a steady stream of wind coming all the time. With all the sand we have it just makes it pretty miserable. But such is life I guess.

do you know my sister out there in Cape Girardeau? She lives on Tyler drive.

#

Sounds like those Boy Scouts are really rough little troopers I just hope they never have to get of with the packboys ~~and~~ that we have too. Of course that is why we are here, so that the kids of America can continue to grow up free.

You asked in your letter if there was anyone who was of Spanish descent here. One of my men is, and he comes from the Chicago area. His name is Richard Morales, AF 16755043, 12<sup>th</sup> AIR POLICE Sqd. Box 2965, APO San Francisco 96326. He doesn't get much mail for himself and I think he would appreciate it.

My sister has been in Carpentersville since this summer

but my brother lived in the same house for quite a few years.

Tomorrow they are suppose to have a U.S.C. show here on base. We are hoping to get to see it. It has been a long time since we have seen a "American girl!"

I don't worry if I don't answer your letters write away because we don't have too much time to write. Please don't think I don't appreciate your writing, because I do more than I'll ever be able to thank you for.

Thank you again for the magazines. We do need people writing to us because we feel that we are forgotten alot of times, especially when we hear about the demonstrators. If I ever get married and

have any children, I will  
never take them camping. When  
I have Viet-Nam I never want  
to see a tent again.

About Korea & Viet-Nam is that  
one is North and the other South. Here  
it is always hot. But Korea  
is cold and hot.

I know I can't wait until  
I come home ~~to~~ next  
year. Boy do I never feel  
so homesick for the U.S.A.

I'll be going to have to  
end now, so until my next  
letter goodbye and take care

Love  
Harry Kuhn

P.S. Say hello to your  
family

Dear Mr & Mrs Villgas,

Hi there and how are fucking?  
I received your last two letters and  
was very happy to get them. The reason  
it took so long is because we have  
been shipped down to Phay Rang AB.  
It is about 40 miles away from Cam  
Rank Bay.

This place is a whole better than  
the Bay because it has hard ground  
over here. Also there are three towns  
in the immediate vicinity. Besides  
we can go into them except after  
six P.M. every night.

Boy I really want to thank  
you for the nice articles you have  
been sending to me. Besides your  
letters help me quite a bit. I hope  
some day I'll be able to show you  
my appreciation.

I thank you also for my dinner  
invitation. I hope I'll be able  
to take you up on it!!

We'll be glad to hear that your  
weather has finally turned out good

maybe this thaw you are having will last. As far as ours is concerned it is getting hotter everyday, and the humidity is getting really bad.

The bad part about this place is, there is alot more action around here then the Bay. The V.C. are very active around here. In fact last night we had a little run in with them.

You haven't said yet that you know my sister. She lives over on Zebedee. Her name is Mrs. Patricia Wagner, why don't you give her a call sometime.

As for your coopies haven't come but am watching for them closely.

Well I have to end now, so until next time goodbye and take care

Denny

I

Dear Mrs. Villegas,

Hi there and how is the whole family? Well I don't know where to start. We received so many letters from you in the last week. Also I got your packages and your magazines and shippings. It is so very nice of you to be doing this and I really do appreciate it. I don't know how I will ever be able to repay you for the kindest you have shown me and my friends. You are a very wonderful family! O, I really loved that "Birthday Cake." We made ourselves a wooden table and it is sitting right in the middle. The guys and myself were so fascinated to see it. We all thought it

was the cutest thing we've ever seen.

Boy it is so nice to read your letters. They are so interesting that I can't really explain it. I can't tell you just how I enjoy them. You tell me so much and I like hearing of your family. As the Victorians say "The Village is Number 1!!!"

Oh Rich got your letter today and he was very happy. He is from Chicago himself and it made him feel so good to receive your letter.

Boy those cookies were really good. I'd bet that I only got one out of the whole batch but your that popcorn tasted good!!!

That sport magazine was really neat. Boy it really brought me up to date with the current sports.

& please don't be mad or hurt about not writing too regular but I have been so damn busy it isn't even funny. I'm working days as kennelmaster temporarily until we get another dog in and I'm putting in about 14 hours a day. So please forgive and I'll write as often as possible.

Well this place is really different than Com Rock Bay and we live just a little better here. But "Charlies" are all over around here. In fact two nights ago we were hit and lost a few Army people. But that is why we

are here in the first place.

Right now all the guys are setting here studying the breeze. Some of the guys really can bring up some weird subjects and really fantastic. I have a real good bunch of good guys here and I'm proud person to be here, with them; if we have any of the requisites we have planned it will be real nice.

I'll tell you this heat over here is really beginning to get to me. For the last week the lowest temperatures were in the hundreds, fifteen or seventeen. God I would give a whole months pay for a room with air conditioning or ice-cubes.

T

On the 23rd of April I'm going to  
go to Bangkok Thailand for  
a weeks R.O.P. Man it will  
be nice just to be out of  
Vietnam for a week.

Well I'm going to have to  
end for now. Please keep  
writing and I'll write as soon  
as possible back. So until the  
next little goodbye and God Bless

Love  
Danny

P.S. Say hello to everyone.

9 MAR 66

I

Dear Mrs Velasco

Hi there and how are you feeling lately? Received two of your letters this week ago was very happy to receive them.

From the sounds of your letters everything at home is just fine and I'm glad to hear that. Boy your family must be a very active one. Also it must be awful nice to be kept on your toes by them.

Before I forget Rich and I are going on our R.R. on the 14<sup>th</sup> but we won't be going to Manila. Instead we are going to Bangkok. But Rich knows what kind of

shoes you were talking about and he will see if they have the same kind of so I'll pick them up.

That cartoon I was going to send to you I thought I had put it in the letter, but I guess I didn't. Well I must have misplaced it I will try to find it and sign and send it to you.

The Stars & Stripes are the military paper for the Armed Forces in the Pacific. It is a round of of all the news in the states and all over the world. We get it a couple times a week.

It is printed everyday but getting it is something else.

Well my sister said that she finally met you. I'm very happy to hear that. She is pretty nice and I like her very much even if she is my sister.

Marge and Patsy I guess are really planning a hell of a party when I get home. Myself I hope a good party and ~~and~~ enjoy people's company. But I'm really planning and working toward it that I'm coming.

O the weather here has been pretty good lately. It has stayed a-

about 100° & 110° in the day  
and for us that is really  
cool.

It doesn't seem right that  
tomorrow is Easter. They (Days)  
just seem to go by without  
every thing stopped. I have  
lost complete track of time  
since I have been here.

I'm going but I have  
to end now because it  
is getting close to time to  
go on duty so until my  
next letter goodbye and  
kind love.

Love

Be sure my love to all.

13 March 66

I

Dear Mrs. Villiers

Hi there and how is everything with you? I received two of your letters with the articles in it and your very beautiful St. Patrick's card. Boy it all made me very happy.

You make sure that the kids know that I really appreciated the candle etc. I'm so very nice really.

By your children really got your husband a very nice birthday gift.

That watch really sounds like it is nice and I don't blame you or your husband for being pleased.

About the Legion, I don't know if all you but I will have time to decide

about joining.

As I certainly hope I can find some air conditioning when I go on R.R. The heat here is really much. I have yet to see it go below 90° during the day-time.

They have really been pushing us lately because our planes will start arriving tomorrow morning and for the next few days we will really be working our tails off. Besides now "Chaskey" has got a real good reason to hit us now. Before we weren't too important but now we will be hitting the North end of course they won't like

IV

it at all. but we can only wait and pray and not worry about it.

Beside in abt. more than a month I'll be away from here for a while.

Boy I come pretty close to saying that stop myself lately I am just about worned out. I doubt if I can even sweat much any more.

Don't do me if anything at your house is fine. And I'm glad for that too.

Oh Rich, was, really happy to hear about your family and receive your letter a package. By now you ought to have had

11

from him. I know he  
really appreciated your  
interest in him.

Well I'm going to have  
to end now because I  
have to go to work so, until you  
next letter, which you'll be  
for school. God bless  
you

Love

Love

B. J. Little & Company for me

23 March 66

Dear Mr. & Mrs. Williams,

If these and too in everything with you. I've received quite a bit of your mail in the last few days, I will never be able to catch up with all of your mail, so please forgive. I, the wife however miss I shame I get.

Well to start off, Kim, has been receiving your mail and is very happy about it. Now, he did get the letters from those young students and was very happy about it.

Those last magazines were really nice. Especially that crossword puzzle. I, will probably spend a few sleepless nights trying to figure out words. Thank you very much.

Right now we are all sitting here in the tent waiting our letters. Most of the guys ~~are~~ are writing their girlfriends, but lucky (in a way) I don't have one. I'll tell you between you and Marge my time is kept occupied with duties. You know I read every single article you send.

I'm enclosing a cartoon, we cut out of one of the Star and Stripes, hope you like it.

Boy from reading your letters I really think I know your families. One of my buddies Mr. Piff said to say hello, and he appreciated the cookies and magazines.

Our weather is beginning to get hot and sticky. Our Fort Tenthers temperature has gone below ~~120~~ 120° in two weeks. We are quite a few guys down with 2nd degree sunburns. I'm glad I'm used to this weather and my skin is toughen up.

The PX got a bunch of Cokes - 24 in today. Each man could buy a case (of 24 cans) for the first time they had since I left the States. It really tasted good.

This is a short letter but we have to get ready for work. We are working 18 hrs today, so that the other flight can get a night off. Then we will get tomorrow night off.

I'll wrap my next letter goodbye and to love.

Loving  
Dennis

P.S. Say hello to all for me.

23 April 66

I

Dear Mrs. Villegas

Hi. How are you and how are you doing these days. I'm sorry I've been so lacking in my writing but it wasn't because I didn't want, but we were kind of busy.

Well I got back yesterday from R.R. yesterday we went to Bangkok instead of Manila. We couldn't find the shoes you want, I'm sorry.

Your packages were sitting here waiting for me when I got back! and thank you very much. Rich and Mike both enjoyed them very much.

Well I'm glad that you are over your sickness. I was beginning to get pretty worried about

it though.

Well the idea of getting a hall sounds very nice but it could become expensive. And I wouldn't like a lot of money spent on it. But it sounds as if it is going to be very nice.

Sounds like Carla has really got a lot of things & says her occupation has taken her time. Boy I wish I had that much ambition.

Well we really had a very good time in Bangkok. We took in a lot of the scenery and some of the more famous things. Also we ate like we were away from home food for

years. He is prepared quite similar to America. Besides that Thai bus was great. We stayed in a hotel with a airconditioned room. It had a bathtub which surprised us and we really used them. By as all good things must come to a end that happened yesterday when we had a storm here. But now we don't have to long to go.

But trying to back into the sewing of things is rather hard. Boy Scout was the one that really missed me. When I took him out last night you would have thought that I had been gone a while.

IV

month instead of a week.

But pretty soon I will be in the half way mark. That is when I will begin to feel happy because I will begin to get short.

Well I have to end here now, and get dressed for work. So until my next letter goodbye and take care

Love

Jimmy

P.S. Say hello to everyone for me.

27 April

F

Dear Dorothy & Carlos

To them and how are you feeling today. I received your package the day before yesterday and a little today, needles & say I was very happy to receive them.

All things are about the same around here. We have had some pretty hot weather, but I guess we are as used to it as we ever are going to be.

Boy I just got some of your letter in. The ink is as really pretty had this evening. At times they get to be very unbecome and today is just one of those days. Wish when I get home it will be so

to sit in a place where  
you aren't constantly bothered  
with bugs, snakes and insects.

That Iron stuff always  
comes in handy. I've never  
got enough of it I still  
have several of Margie's  
left, but I use quite a bit  
of it.

We'll don't glad to hear  
that you are feeling better.  
I know just how you must  
feel when you are upset.

I'll be looking for the "Brown  
Envelope" and the car magazine  
will just be fine. You know  
when I see that pig envelope  
in the Mail Call I know it  
is usually for me and  
that makes me feel good.

Don't glad Alan was  
happy with his pick. I

bet he is having a hell  
putting it together.

Sounds as if the girls are  
discovering that boys can  
be real devils when they  
are youngsters. But that's that  
is part of childhood.

I'll sure hope, will have  
to learn to get along with  
chippy nylons. Because if the  
girls are normal, they will  
have quite a few wet nylons  
around.

Well don't worry I have to  
cut this short but we have  
to go to work. These shorts  
are beginning to bug me.

So until my next letter  
goodbye and take care  
Loving  
Jimmy

P.S. Love my mom & all.
