

Verse 1. We were called into Tan Hiep
On January Two
We would never have gone there
If we'd only knew

2. We were supporting the ARVARS
A group without guts
Attacking a village
Of straw covered huts

3. A ten copter mission
A hundred troop load
Three lists are now over
A fourth on the road

4. The VC's start shooting
They fire a big blast
We off load the ARVARS
They sit on their ass

5. One copter is crippled
Another sits down
Attempting a rescue
Now there is two on the ground

6. A Huey returns now
To give them some aid
The VC's are so accurate
They shoot off a blade

7. Four Pilots are wounded
Two Crewmen are dead
Whether its all over
A good day for the Red

8. They lay in the paddy
All covered with slime
A Hell of a sun bath
Eight hours at a time

9. An armored Battalion
Just stayed in a trance
One Captain died trying
To make them advance

10. The paratroops landed
A magnificent sight
There was hand to hand combat
But no VC's in sight

11. When the news was reported
The ARVARS had won
The VC's are laughing
Over their captured guns

12. All Pilots take warning
When tree lines are near
Let's land those darn copters
One mile to the rear.

The newsmen are trying.
