I. Administration

The elementary school system in Laos is administered at the national level by the Office of Elementary and Adult Education. School administration in the 16 provinces of Laos is the responsibility of 22 Primary School Inspectors. There is currently no school inspector for the province of Phong Saly.

• Enrollment (Table 1 - 8)

Between the close of the 1969-70 school year and the close of the 1970-71 school year, the total enrollment in public elementary school increased from 183,929 to 205,989 or 11.99 percent.

Of the total number of pupils in public schools at the end of the 1970-71 school year, 75.78 percent were in the first three grades and 40.69 percent were in Grade One. However, the information given under "remarks" on Table No. 5 shows an acceleration in the number of pupils reaching the upper elementary grades.

Table No. 7 presents the number of pupils in each grade in the public schools who were promoted to the next grade at the end of the 1970-71 school year. About 40 per cent of the pupils are not promoted and must therefore repeat the same grade or drop out of school.

Table No. 8 shows the number of pupils who passed the sixth grade final examination (Certificat d'Etudes Primaires, or CEP) and also gives an indication of the success these pupils had in being admitted to the secondary schools in the country. The table below shows the substantial increase in the number of successful candidates for the CEP over the past 25 years.

III. Schools (Table 9 - 12)

Although the Ministry reports an increase of 51 public elementary schools since last year (see Table No. 11), it should be noted that the Ministry includes schools that are in operation and schools that are closed, mostly for security reasons, in its figure. The number of schools in operation actually decreased by 5. There were 26 more groupes scolaires, and 285 more CREC schools in operation since the previous year, but there was a decrease of 35 in the number of primary schools and 19 in the number of demi-groupes scolaires in operation.

Definitions of the different types of schools are as follows:

Groupe Scolaire (252 in operation): A six-year elementary school which meets certain requirements (an enrollment of 180 pupils, at least 20 pupils in grade six, at least three surrounding primary schools, etc...). The director of a groupe scolaire is a sub-administrator under the Primary School Inspector with responsibilities for the primary and CREC schools in his areas.

Demi-Groupe Scolaire (182 in operation): An elementary school with more than three grades but usually less than six, which has not yet qualified to become a full groupe scolaire.

Primary School (972 in operation): A village school which usually has the first three grades. At least one teacher in a primary school would be a qualified (Xan Tri) civil service employee.

CREC School (535 in operation - 128 in wats, 407 in villages): A CREC school ("Centre Rural d'Education Communautaire") often has only one grade but sometimes reaches grade three. The teacher in this type of school may be a monk or a village volunteer who receives a small monthly allowance from the ministry.

IV. Teachers (Tables 13 - 16)

Teacher employed as civil servants have the following grade classifications:

Xan Eck: Class I Civil Servants. 27 school inspectors and other school officials have achieved this grade.

Xan Tho: Class II Civil Servants. The Ministry employs 1857 Xan Tho teachers, who are graduates of the tenth grade or the equivalent, and qualified to teach grades 4-5.

Xan Tri: Class III Civil Servants. The Ministry employs 3437 Xan Tri teachers, who are graduates of the sixth grade with one or two years of teacher training, or the equivalent, and qualified to teach grades 1-3.

The civil service teachers are supplemented by a corps of CREC teachers, who are basically volunteers, and by a group of teachers in some areas who are paid by the military.
