Larry D. Woodson

Frank Manning found me on the internet and sent a copy of your 2000 KHAO LAO. I'm glad to know some old IVS'ers are still around and involved. My wife, Nancy, and I have lived on Saint Simons Island for 12 years now. We have two sons : Ben graduated from Swarthmore, Sam is a senior at the University of Georgia. My IVS experience led to 24 years with the UGA Cooperative Extension Service. I've been a consultant for 4 years. Keep in touch.

Sincerely

A handwritten signature in cursive script that reads "John Bryson".

John Bryson
