

THEORY OF THE EARTH

1. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

2. The earth is a sphere of uniform density.

3. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

4. The earth is a sphere of uniform density.

5. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

6. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

7. The earth is a sphere of uniform density.

8. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

9. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.

10. The earth is a sphere of uniform density. This is a simplification, but it is useful for many purposes. It is the basis of the theory of the earth's shape and the theory of the earth's internal structure.
