Dear Sirs:

Re: Insurance Coverages for
Lao American Association

We acknowledge with thanks the copy of the Insured's very informative letter dated December 14, 1972.

It is now our pleasure to confirm the rates as follows:

1. General Liability (excluding foods and drinks)

With the following limits:

Bodily Injury: US\$ 50,000.- per person
US\$ 50,000.- per accident

Property Damage: US\$ 5,000.- per accident

The rates are: US\$ 200.- for Vientiane
US\$ 125.- for Luang Prabang. 325

2. Workmen's Compensation

Covering employees against The New Thai Labour Law at the rate of 0.1875% of payroll. The total premium is US\$ 209.-. The breakdown follows:

Teachers	US\$ 67,500.-	Premium	US\$ 126.56
Staff	US\$ 37,170.-	"	US\$ 69.69
Services	US\$ 6,800.-	"	US\$ 12.75
	<u>US\$ 111,470.-</u>		<u>US\$ 209.00</u>

We are enclosing one copy of An Abstract of The New Thai Labour Law for your ready reference.

3. All Risks

For movable equipment with the total value of US\$ 16,563.40 (Vientiane \$ 12,563.40 plus Luang Prabang \$ 4,000.-). The rate is 1½%. The total premium is US\$ 248.45.

4. Fire

The rates of fire on building and office furniture and equipment are as under:

- | | |
|--|-----------------------------------|
| 1. On Fire Only | 0.20% |
| 2. Extended coverage to include Multi Perils and Flood | 0.10% (addition to the above) |
| 3. Extended coverage to include Riot & Vandalism | 0.10% (addition to the above two) |

Kindly confirm which coverage is required and also stating the nature of assets to be insured.

Regarding fire coverage on the building at Luang Prabang, it is not clear in the Insured's letter if the association is liable for the fire legal liability. Suspension of rent does not necessarily mean exemption from liability in case fire occurs due to the association's negligence. If not clearly stated, Vientiane Civil Law would apply and Association may be held liable.

However, the rate for Luang Prabang is 0.15% on the value insured, if fire legal liability only is needed.

5. Automobile Insurance

It may be of interest to the Association to find out whether the USAID vehicles or other vehicles used for field trips to carry students etc. are insured including legal liability to passengers.

6. We agree with the conclusion that the LAA is protected if they have liability and workmen's compensation insurance. Personal accident does not seem to be required. However there could be instances where students might be hurt on the premises without LAA having legal liability.
