

Dear Larry W — This is the flyer I sent to people on  
your Khao Iao list, and to a group of Lao trans <sup>as</sup> well.

**Have you ever wondered how  
to explain your Laos years  
to people in the States?**

I'm much obliged to you — these two copies by  
way of thanks — Roger Werner

**This is how.**

OUT OF LAOS is a visually-driven history of the Laos war (1960-1975). This 250-page book of pictures and text is by Roger Warner, whose *other* book on Laos, the nonfiction BACK FIRE, won the Overseas Press Club's book of the year award. Both books are available here, but not through stores. "Roger Warner has done the impossible," says Architectural Digest (Sept. '96, p. 112). Send for your own copies, and see for yourself!
