The attached is an MS word file if it is not readable please reply. If it is readable please forward to all concerned for donations to see this case to a successful conclusion and the release of withheld and hidden documents. We have identified even more documents and asked the court to take discovery and appoint a special master. The lawyer has the expertise we need and this takes money for attorney fees. Those that have donated have gotten the case this far.

If you want it accomplished please help get it there.
Roger Hall
