Subject: Wedding - October 6 Philadelphia

Mr. Khamphong

As noted earlier, I thought it was reasonable to utilize any resources for the wedding and not worry about my presence at the wedding. I still believe it is the wiser use of valuable resources.

Having said that, if you are sincere about our being at the wedding and you are still interested in finding inexpensive air fares from Kansas City to Philadelphia, We will reconsider your invitation.

If it is your desire for our presence to honor the occasion, we could possible depart on the 3rd of October and arrive there that evening. We could return the 7th or 8th depending upon seat availability.

We will make the effort and the commitment to honor your invitation and in respect to our friendship back in Laos.
