SAIGON FOREIGN MINISTER'S TRIP ABROAD ANALYZED

Hanoi VNA in English 0753 GMT 19 Jun 74 B

[Text] Hanoi VNA June 19--QUAN DOI NHAN DAN today says Saigon Foreign Minister Vuong Van Bac's current trip to the United States, Britain, Italy, Japan and France is merely a smokescreen to hide U.S.-Saigon sabotage of the Paris agreement.

The army paper says that the Saigon administration, pilloried by the republic for its policy of war, is conducting this "peace offensive" in an effort to get off the hook. "Aid is another objective Saigon has in mind, considering how badly it needs foreign investment now," the paper remarks.
