Dear Bishop Seitz:

Thank you for your letter of March 15th. You do not have to take up your valuable time writing, just ask some of your good people to pray for us, including a few prayers to the Little Infant. I know a few doctors and dentists; do you need any medical supplies ? If so please send me a list.

God bless you for being so close to your sheep. Although they may be suffering, they are more fortunate than those in America with their money and waste.
