

Quaha

Bill

My god I am actually enrolled and attending another institution of higher education for a nominal fee. One class (1) = one hundred and eight dollars or say one hundred and thirty thousand at an exchange of seven and a quarter per one. Somehow the young carpenter boy watching his father level a leg no longer dwells in the boney confines of my early teaching. Have signed the dotted line of Elementary Spanish 0125 1125 4 Adm 309 0730 - 0730 M-F There success have transcribed it and only took me four cards. There must be hope for the partially retarded.

As for me hanging on and going. Have applied for Uncle Sam's monies in the form of Bill G I one each for a small sum of two hundred & seventy dollars monthly X Three. Have already got the next step planned?

Should have close to one thousand greenies by Sep and all I have it do is go to class and collect. The language course made the most sense in a system I question forever. all validity.

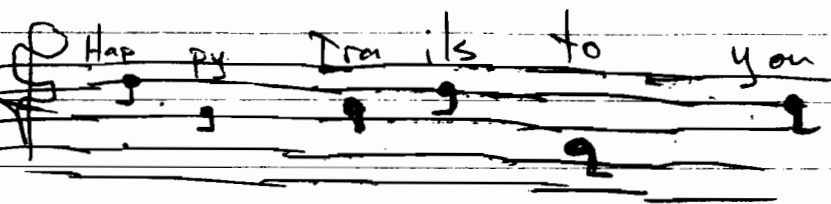

My pack is already down to Three shirts two pants one blanket and three books. Just fills the official army scout pack, I got on special down by Le Loi Duing once upon a time in another city. The project take off ~~was~~ is between now and next December so will be sure and write once or a while so as to say how's you ik?

My parents were recently in Pittsburg to say hello to older brother, and would imagine that of the one hundred & sixty hours spent in running last week I slept one hundred & thirty of them. Was attempting to get fat but ran out of money so back to coffee and carrots.

Any news of ~~Kerry~~ or Phyllis? Being here is so far away from there and no information of any type. Am sure Christian and Baker are good to alive! Hope they make Baker swing a shovel a few hours each day for the new cause.

Bob Cairns is alive and well internship in Phoenix? Arizona any way. The only general or public type hospital in town. fat and sassy as of last when ever it was I saw him.

That's me in the window waving good-bye until we meet again.

Always

Scott
