WYNNEWOOD, Pa. 19096

Dear Dr. Rose,

Some time ago you called the Consulate General to ask whether we had any information about the whereabouts of Dr. Edric Baker, a New Zealand doctor who was working at Kontum Hospital in Vietnam, and who had chosen to stay on after the recent Communist takeover of South Vietnam. The Ministry of Foreign Affairs in Wellington has now informed us that evacuation assistance was offered to Dr. Baker when the Communist advance southwards began but that he chose to stay at Kontum. No further news of him has been received since the People's Revolutionary Government takeover in South Vietnam and nor has his father any further knowledge of Dr. Baker's whereabouts.

Further enquiries are being made about the welfare of Dr. Baker and I shall get in touch with you again if we receive any further news.

Yours sincerely,

H. G. Smith
Consul General
