Incl to Journal 23 Jun 67

At 1815H I called in and requested an airlift of Co A 2/35 Inf to be conducted at 1930H on the organic company push. At 1848H, I changed this request to reflect two different lifts, specifying which was to be a final extraction and which was a secured lift. At 1900H, CO Co A informed me that his 2d platoon was ready for extraction. I informed Brigade of this and requested an ETA on the lift. They could not give me one but said they would call when they knew. At 1930H CO Co A informed me that he had slicks and a hook flying over his area but was unable to make contact with them. He also reported that his 2d plat called and could not make contact. When Dolphin birds were directly overhead CO Co A made radio contact with the dolphins. He told them to pick up 2d plat and, since A Co 2d plat couldn't make ground to air contact, told 2d platoon A Co to "Pop Smoke" 2d plat Co A did, and the hook went in and made a final extraction. He received, evidently, ground to air fire and he fired his organic MGs, almost hitting A & C Co. I was finally able to reach him when he landed at IZ LIZ. Informed him of the problem and told him to go to the 2/35 Company A frequency. He rogered. After picking up the 3d plat, Co A, and landing at Liz, the hook returned toward company A to pick up the rest of the company. As he passed over the area of the road, he again fired his MGs. The gunships escorting the lift immediately went into the same area and opened up with rockets and guns. When this was reported to me by CO Co A, I immediately called Brigade and requested them to cut the fire as I had no commo. We sent an element from 3/C/3/4 Cav to check the area for casualties. Initial reports indicated 5 WIA but this proved erroneous. Later an RTO monitored a report that 5 were injured, 3 PFs and 2 WIA's. At no time was permission given, or was it requested, to fire the guns in our AO. This is the facts as we know them. There may be problems we weren't cognizant of, however, we wanted you to know the facts as we have them.

Transmitted to CPT Morris, Bde Duty Officer, at 232240 June 67 by 1LT Richard J. White, Jr., Asst S3.
