72	1710		Entrance was well concealed under brush, entrance went in about 10ft & tunnel then branched off in a T shape left tunnel off main tunnel was about 5ft wide and 5ft high, left tunnel made a right turn and then a half left turn, left tunnel went about 70 meters with no off shoots from it. The ends of left tunnel were either closed by cave-ins or where they had stopped digging. Tunnel on right side of T off main tunnel was about 6 1/2 ft tall and 6ft wide it ranged to 4ft tall and 3ft wide. The right tunnel ran for about 300 meters to an opening the same as the first only better concealed. The tunnel was twisting and turning for the whole 300 meters. Off this right tunnel ran a myriad of tunnels which cannot be described by words. In right tunnel had many numerous small rooms made in T shape off the tunnel; both ends of these Ts had a 15ft sq room on each end about 5ft high. Also off right tunnel was one air vent that led up to surface and well concealed airhole was circular and 3ft in diameter. There was also one other airhole off right tunnel, which went about 20ft under ground, airhole was a shaft about 6ft wide This airhole was also well concealed on sur- face.
