JOURNAL 14 OCT

MISSION: B/2-35 Inf conducts "RANGER" type ambushes during daylight and darkness from 17 Oct until 20 Oct vicinity hill 464 (BS 728339) hill 484 (BS 729327) and trail junction vicinity BS 739330.

EXECUTION: (See Opns Overlay) Concept of operations, Phase I. B/2-35 prepares for "RANGER" type ambushes on 15 Oct by issuing orders, conducting inspections and rehearsals. B/2-35 departs LZ OD on foot at 160730 and moves to clandestine bivouac site VIC BS738347. B Co departs clandestine bivouac site NLT 170600 by platoons and moves to the vicinity of the respective ambush sites, hill 484, hill 464, and trail junction east of hill 484. B Co establishes a minimum of three day/night ambushes to cover all trails at each ambush site. B Co remains in ambush until 201400. Phase II. B Co moves to clandestine bivouac site at Sa Khom, VIC BS 735337. B Co departs clandestine bivouac site NLT 190600 and moves to the vicinity of their ambush sites located near hills 484 & 464 and remains in ambush until 201200 at which time B Co moves to and secures the extraction landing zone north of hill 464 (VIC BS 732347) for extraction by helicopter at 201400.

LRRP: Move with B/2-35 to the first clandestine bivouac site. Depart the clandestine bivouac NLT 170600 and move along route indicated to establish a secret OP VIC BS 707340. Observe the trails and report all activity in the area until 190600 at which time move along the route indicated to establish a secret OP at BS 687338. Maintain the OP in that vicinity until 201500 at which time move to and secure the extraction site at BS 687335, extract by helicopter at 201600.

COORDINATING INSTRUCTIONS:

- TRK*
- a. LRRP report to C.O. B/2-35 NLT 151200 at LZ O.D. for instructions and instructions and coordination on the operation.
 - b. LRRP will be attached to Co B effective 151200 until 170600.
 - c. All moves will be made using stealth.
 - d. All personnel will camouflage face, hands, helmets, web gear, weapons, etc.
 - e. Resupply will be conducted only as an emergency measure.
 - f. A five day supply of salt tablets, iodine tablets and malaria pills will be carried by every man.
 - g. Night ambush sites will not be entered until after 1930 hours.
 - h. Daylight ambushes will be established as early as possible consistent with movement time (using stealth) to ambush site.
 - i. Ambushes will not displace prior to listed time unless enemy contact has been made.
 - j. Ambush sites for Phase II will be designated by CO B/2-35.
 - k. Each platoon will establish a minimum of three ambushes at each ambush site.
 - l. Airborne relay will be over extraction sites from 201300 - 201600 hours; other times as required.

At 120910 Oct 67, BS 730335, a seven man LRRP team was inserted with the mission of providing surveillance of the trails in the area. The team leader was SSG Frost; two AN/PRC-25's were used for communications. The LRRP was inserted using two HU-1D helicopters and A Co secured the LZ. The insertion was completed without incident and the LRRP established communications with the BN CP at 120911 Oct. The LRRP moved with A Co as a cover to BS 737333 from where they split off at 121215 Oct. The team then moved west approximately 800 meters on the South side of hill 484 and established two observation posts at 121408 Oct, BS 730327, to scan the trail network in grid squares BS 7333, BS 7332, BS 7233, and BS 7232. They observed these areas for approximately four hours until the cloud ceiling lowered and visibility became severely limited. At 121910 Oct the LRRP sighted two V.C. carrying packs moving east on a magnetic azimuth of 95° on a trail at BS 732329. A Co was immediately notified that two V.C. were moving toward their ambush locations at BS 744324. At 130715 Oct the LRRP team started to move west to a new location and at 130800 they spotted five V.C. moving from the north to the South on an azimuth of 180° on a trail at BS 729328. Three of the V.C. were males and the other two were females. Four of the V.C. carried rifles (two long barrel rifles and two short barrel rifles). The five V.C. passed within 10 meters of the LRRP point man. The fifth V.C., a woman without a weapon, who passed the LRRP looked directly at the LRRP leader who was standing motionless. Whether the LRRP was observed was unknown but the five V.C. quickly disappeared into the brush. After this encounter, the LRRP team then moved south for approximately 100 meters and established two OP's at BS 729327. From this location they observed three V.C. with M-1 carbines at BS 724336. One of the V.C. was dressed in black P.J.'s while the other was dressed in black shorts. They were walking on a trail from the north to the south on a magnetic azimuth 160°. The LRRP leader requested artillery and the first round W.P. hit in the middle of the three enemy and the V.C. moved approximately twenty meters to their right into the bushes. The LRRP leader then adjusted the fire twenty meters left and requested H.E. The H.E. rounds hit directly in the bushes where the V.C. were hiding. The LRRP leader estimated that two V.C. were probably KIA and one V.C. was WIA. There was no movement in the bushes after the artillery was completed. At 131307 Oct the LRRP team observed three NVA wearing khaki uniforms, cartridge belts, and carrying M-1 rifles at BS 732338. They were moving north to south on a magnetic azimuth 175° on a trail east of hill 464. One of the NVA was wearing a pith helmet the other two were bareheaded. The three NVA stopped moving at BS 732338 and knelt down and looked in the direction of the LRRP O.P. One of the NVA pointed his weapon in the direction of the LRRP O.P. The LRRP leader requested artillery on the three NVA and the first rounds fell short in front of the enemy. The three NVA moved approximately four-hundred meters north-west up hill 464 when the second volley of artillery fire fell on top of hill 464. The three enemy continued moving north-west up hill until they disappeared over the

CONFIDENTIAL

ACT: LRRP After Action Report, 15 Oct 67

of the hill. During the artillery fire the LRRP leader observed a fourth NVA standing near the top of hill 464 at BS 728339. This NVA quickly disappeared after the second volley of artillery fire impacted. At 131327 Oct the LRRP leader requested that the LRRP team be extracted because he felt the three NVA had observed his position and knew that he was adjusting artillery fire in the area. The LRRP request for extraction was granted and at 131350 Oct the LRRP team was prepared for extraction. At 131421 Oct at BS 732328, the LRRP team was extracted by the C&C ship and one HU-1D with two gunships providing cover. The extraction was completed without incident.
