CPT Flick/grt/Fighter 2

1. On 151720 Oct, an eight man LRRP team was taken to LZ OD and placed under B Company's operational control and remained under B Company's control until 170700 Oct. The LRRP leader was SSG Frost and two AN/PRC-25 radios were used for communication.

2. The LRRP mission was to move with B Company on 16 Oct to a clandestine bivouac site at BS 737347. They would spend the night at this location. At 170600 Oct the LRRP would move by a north-westerly route to an OP at BS 704344. At this OP they would observe the trail networks in the vicinity and would stay there until the morning of the 19th. On 190600 Oct, the LRRP team was to travel by a north-westerly route to a new O.P. at BS 687377 and observe the trail systems in the area. They were to be extracted from a suitable PZ in this area on 201600 Oct.

3. At 161000 Oct, B Company with the LRRP moved from LZ OD to the clandestine bivouac site at BS 738348. They arrived at the site at 161830 Oct and remained there until the following morning. At 170605 Oct, the LRRP moved approximately eight-hundred meters northwest on an azimuth of 320° to hill 404 at BS 734353. At these coordinates, they found a lean-to which had been recently inhabited. At 160927 Oct, the LRRP then traveled south-west for about two-thousand meters on an azimuth of 195° to BS 728347. Along their route, they observed several freshly cut trails that ran generally from the west to the east (BS 717348 to BS 732351). The trees and rocks along the trails had signs painted on them with white paint as indicated (Δ-). The LRRP saw about five-hundred of these symbols. At steep crossings along these trails, the LRRP found hand rails to facilitate walking. At 161205 Oct, the LRRP moved one-hundred meters north on a azimuth of 360° to BS 728348. They discovered a recently used campsite with a small stream running from the east to the west. They found signs of previous campfires, rice scattered about the area, and three water troughs constructed of bamboo. There were large boulders in the area, forming several crevices and natural caves making concealed hiding places. At 161230 Oct, the LRRP heard voices coming from a draw a hundred meters to their east. They listened to the voices for ten minutes and were unable to determine the number of people. SSG Frost instructed the team to remain in their present position, while he and PFC Galindo investigated the voices. SSG Frost approached the suspicious area from the north and PFC Galindo moved into the area from the south. At 161320 Oct, SSG Frost sighted fourteen V.C. in a large rocky area. Some were washing clothes and others were eating or preparing food. Three V.C. were approximately eight meters from SSG Frost's position. There were two males and one female wearing black P.J.'s. The two males were attempting to light a fire and the woman was pouring rice into a tin pot. The woman looked up and saw SSG Frost, he shot her and she fell backwards off the rock. The two men immediately reached for their SKS rifles but SSG Frost killed them with one burst of

CONFIDENTIAL

SUBJECT: IRRP After Action Report

19 Oct 67

automatic weapons fire. PFC Galindo, who was on the southside of the V.C. camp, observed two women coming down a trail headed south. He engaged these two and killed both of them. The remainder of the V.C. in the camp had taken refuge in the crevices and natural caves in the rocks. SSG Frost entered the campsite and began searching the area while PFC Galindo provided security. He found four sandbags of polished rice, one khaki uniform, several black P.J.'s, NVA shirts, cooking vessels, tobacco, and thirteen rounds of 7.62 ammunition. At 171420 Oct, the IRRP RTO had reported they were in contact and gunships were requested to engage the enemy camp. At 171430 Oct, SSG Frost and PFC Galindo had rejoined the team. They believed they had sufficiently broken contact and that extraction was not necessary. The IRRP moved approximately two-hundred meters west on an azimuth of 270° to BS 726348 where they stopped to rest. At 171525 Oct, the IRRP medic observed two V.C. approaching from the east moving on a freshly cut trail vicinity BS 726348. He fired at both the V.C. and killed one. The other V.C. was engaged by the entire IRRP team and was killed. Both V.C. were wearing black shorts, one had on a grayish shirt and the other one wore an O.D. T-shirt. From the two dead V.C. the IRRP confiscated two NVA packs, one knife, two large sickles, and one pistol belt.

4. At 171532 Oct, after this 1-st contact, the battalion S3 advised the IRRP they would be extracted from a PZ at BS 728346. The IRRP moved northwest two-hundred meters to the PZ and were extracted by two UH-1D helicopters with two gunships providing protection. The extraction was completed at 171552 Oct without incident.
