SUBJECT: Combat After Action Report for move from LZ WELCH to LZ ABBEY (u)

Commanding Officer
1st Brigade, 4th Inf Div
ATTN: S3
APO San Francisco 96262

1. (C) Concept of Operation: On 14 Jul, the 2d Bn 35th Inf was airlifted from LZ WELCH and vicinity to LZ TWO BITS. Two companies were lifted from LZ's in the field, A Co and B Co. C Co was airlifted from the PSB to LZ TWO BITS on 15 Jul. On July 17, the battalion CA'd into multiple LZ's in their assigned AO.

2. (C) Comments:

- a. On the move from LZ WELCH to LZ TWO BITS:
- (1) Bn should receive all tail numbers and call signs of birds assigned for an airlift, this would facilitate control of the aircraft.
 - (2) LZ's should be checked by the Bn CO at a minimum of 24 hours in advance when possible to insure an adequate amount of time for units to make necessary improvements.
- b. On the move for LZ TWO BITS to LZ ABBEY:
- (1) Bn CO's LCH or CO should be available prior to the lift birds to prevent undue delay.
 - (2) Gunships should be standing by prior to lift birds arrival also.
