

OFFICERS AND MEN IN THE 25th U.S INFANTRY DIVISION

There will be more shelled attacks and annihilating battles which are feared coming to you.

Our people's liberation armed forces are revolved to defeat the U.S aggressors who are causing a mourning of our native land. Our hostility towards the U.S aggressors and Thieu—Ky dictatorial traitors and determination to use ourselves blood and bone in view to winning independence and freedom will be our strength for overcoming of the enemies.

The day when the U.S bellicose ringleader band still carry out the aggressive war and cover Thieu—Ky traitors, then we look you as the enemy number one of our nation.

However, the South Vietnam people have highly honoured and gratefully thankful the U.S people who have sympathized and supported our struggle for peace, independence, freedom and neutrality. That mean :

— The South Vietnam National Front For Liberation strictly observes its lenient policy towards the U.S presoners of war and enable and help them to return to their family if they recognize their sins against the Vietnamese people as the case of Claude Mc. Clure RA.14.703.075, black american and George Edward Smith RA.13.522.780.

— The Front highly welcome the U.S citizen's struggles to demand Johnson administration to stop immediately the U.S aggressive war in South Vietnam.

— The Front highly praise the courage actions of your friends to oppose to your being sent to the battlefield massacreing our peasants in the liberated area. Only so doing you can look yourselves for away out.

— The Front will arrange the repatriation of anti-war US GI's crossing over to the Front's side.
