JIM ANDERSON  

Dear Jim,

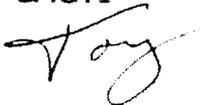

I hope the enclosed material is useful to you in preparing your article. You may notice some discrepancies between the various documents; sometimes memories can play tricks on you. I would point out also that the neatly typed staff journal was also created after the fact and may also have errors-there weren't any typewriters at 10A.

I have also included info on an earlier action that resulted in a VUC for A/1/35.

I was fortunate to have so many great grunts working for me-real pros that gave a lot more than they took.

If I can do anything else please call me. 

CACTI

TONY BISANTZ
