Jim,

as the association historian,
I'm sure you are interested
in the accurate historical record.

as OIC of 1st platoon B-2-35
during the Ton Phong operation,
in particular the 29 May 67 enemy
contact, I gave you my anecdotal
report of that incident from
my "official" experience.

The "after action report" and
"daily journal" for 29 May 67
conflict with my experience as
the OIC on the ground that
night.

I have enclosed my award
for that action which contradicts
the Battalion "official" report.

1st platoon deserves to have
the facts on record and as
their platoon leader that night,
I owe it to those brave men
who followed me to the
Company CP that night, to
make sure they get the credit

due them.

If you need further details please contact me.

Thanks for your hard work
as our historian.

Sincerely,
Walter Allen Jurek
