SUBJECT: Stand Down Evaluation Report

AC of S, G3
4th Infantry Division
ATTN: O&T
APO San Francisco 96262

2d Battalion 35th Infantry completed their stand down on 7 Sep 1970. Below is an evaluation of training conducted, facilities, and services provided during the stand down:

a. Program of Instruction: The Program of Instruction was well organized and covered a variety of subjects which are useful to the individual soldier. However, due to the guard commitment, not all personnel completed all of the training.

b. Lesson Plans: Lesson Plans were provided by 4th Inf Div, and, when coupled with the Lesson Plans published by this battalion, provided a more than adequate base from which the instructors could formulate their own Lesson Plans.

c. North An Khe Range: The range was adequate for the battalion needs, and was coordinated through the 4th Training Detachment.

d. Training Facilities: Training facilities were adequate, however, there was a small number of training aids available to the instructors.

e. Courtesy Inspections: This battalion received two courtesy inspections of training at North Range. All M-16 rifles were inspected for bore erosion by a team from 704th Maint.

f. Special Services: Recreational facilities were provided for personnel of the battalion to include:

(1) Sports equipment to include volleyball, basketball and softball equipment.

(2) A picnic at Lazy Acres with sports and a floor show.

(3) A floor show at the stand down area on two occasions.

SUBJECT: Stand Down Evaluation Report

g. Stand Down Area: The Division Stand Down Area provided adequate billeting and latrine/shower facilities. The NCO/EM Club was not open during the first six days of the stand down.

h. Installation Support: A mobile PX came to the stand down area on one afternoon. The mobile Barber Shop and Snack Bar did not come to the stand down area.

i. Personnel Support: An AG Records Team was provided for a records check.

j. Logistic Support: A Courtesy CMMI was conducted by a team from Division. This battalion conducted TA 50-901 inspections and provided DQ facilities at the stand down area. All personnel had their individual shot records updated by the Bn Med Plt.
