REMARKS:

Governor Liket is a very shrewd man. He insists on an interpreter but I feel sure he understands English. I received very fine cooperation from the Governor. He was very helpful and appears to be very pro American.

He is in complete control of the province. He has the final say in all matters in the area.

The Governor is a very intelligent man and has a highly efficient intelligence system in his province. In future operations in this area the Governor is definitely the man to contact first.
