Ed

Dear Ed,

Just wanted to let you know I finally saw your memo "Future Plans" dated Oct 3. I feel that it is one of the best things you ever wrote.

I talked to Unger about it briefly and he was apologetic about not getting an interim answer out to you. He was also pretty non-committal. I suspect that Homer & Roston probably have more to say on this one than Bundy-Unger.

I will be checking on this, this week and will verbally brief Sam before he leaves.

Teal Owens is Director of Programming for AID/Latin America (Alliance for Progress) and is pushing his ideas very strongly from the inside. He is in contact with several publishers and will let me know if he needs help there (I was thinking you could help with Praeger if he needs it). He was very pleased to hear that you thought the book useful.

Best to all the Team -

R.
