

THE MCNAMARA BOOK AND LEGACY: Retrofit for IN RETROSPECT

A one-day conference at the Army and Navy Club, Washington DC
(November 9th, 1995 at

IN RETROSPECT(Times Books, 1995) is Robert S. McNamara's apology for prosecuting the Vietnam war and a confession of error--which he attributes to both himself and to our political/military establishments. The book generated controversy that must have surprised even the author. Indeed, letters-to-the-editor, cartoons, opinion pieces, and editorials erupted with heated discussions of the issues of "guilt" and "retrospection" raised by the book during the "twentieth anniversary" of our defeat in Vietnam. (Only a small fraction were favorable to the author.)

The Vietnam Veterans Institute(VVI) believes that our heritage needs constant analysis and evaluation. The VVI Journal has examined such issues as Discrimination against Veterans and the Neil Sheehan book, A Bright Shining Lie. We have read McNamara's In Retrospect and find the book deficient--even in its declared areas of "clarification." This day-long conference will be taped and major media will be invited; an anthology will be created from the papers and comments. With these video and print records, we will produce a comprehensive retrospective of Robert McNamara's activity in, and account for, the Vietnam War--thereby providing a retrofit for In Retrospect.

Registration is \$50.00. All must register.

This conference is partially underwritten by the American Legion, but is still seeking financial support from veterans groups and foundations.

What is the Vietnam Veterans Institute?

Since the Vietnam War ended, its veterans have struggled to come to grips with their experience, and society in turn has struggled to come to terms with them and with its involvement in the war. These struggles have been compounded by an enormous amount of misunderstanding about the war, those who fought it, and the reaction to it.

The VVI mission is to develop and foster legislative, public policy, and educational initiatives that positively address issues of importance to Vietnam veterans and veterans generally. VVI also promotes legislative initiatives on issues in support of our active duty armed forces and, domestically, the values upon which our nation was founded.

Founded in 1981, the Vietnam Veterans Institute is an incorporated, tax exempt, not-for-profit organization governed by the active Board of Directors and Trustees. It is an independent Education, Research, and Public Policy Institution which develops

symposia in conjunction with universities and other institutions. It publishes the Journal of the Vietnam Veterans Institute. In the recent past, the journal has published issues devoted to the following topics: Discrimination against Vietnam Veterans; Neil Sheehan's epic, A Bright Shining Lie; Vietnam in Academe.
