

Doug. Lt K sent me these hand written order after the 2006 Reunion. Thought you might be interested in them.

TREE

According to Lt. Kopaczewski who was a temp Company Commander for about a week between Estep and Humphrey. He told Col Love that he did not want the position . He had just turned 21 and didn't feel he had the experience to command a rifle company.

Back then it was not uncommon for a company roster to be hand written. This roster is from middle to late march of 1968, during TET.

Lt Kopaczewisk writes, "as you can see by the list that our company was really depleted. It was more like and oversized platoon than a full Company."

"When I made out his list it was in haste, so my notes were not as complete as they should have been."
