Dear Veterans of Operation Ranch Hand:

For many Dedicated and Daring Dispensers of Dandy Defoliants, 1982 began with a TDY to the Kelsey-Seybold Clinic in Houston, TX to take part in the first phase of the Ranch Hand II Epidemiology Study investigating any possible health problems resulting from contact with the herbicide 24D/245T.

The physical examination conducted by Kelsey-Seybold was the most complete and thorough physical ever received by this writer, including pre-aviation and annual flight physicals. Never before have I been prodded and probed by such professional and competent medical personnel. All of the professionals at Kelsey-Seybold saw to it that the four-day "visit" was "painless", enlightening and a totally positive experience in every respect.

A WELL DONE is awarded to Dr. Marvis P. Kelsey and his entire staff. They are certainly Honorary Rancheros!

To recognize a few by name in no way omits the many professionals involved in this program and the outstanding contribution to science they are all making. Special mention is deserving to Dr. George ("Dioxin Doc") Iathrop, Chief Epidemiology, School of Aerospace Medicine, Brooks AFB, TX. He's top drawer!; and Jean Perkins ("Super Nurse"), Kelsey-Seybold Clinic, Houston. Those unnamed know who you are. We thank all of you.

#### Ranch Hand II Study:

In September of 1982, the first definitive data available from the Ranch Hand II Study was presented to the Veterans Affairs Committee of the House of Representatives by General Chesney, Assistant Surgeon General, USAF.

Data shows that the mortality rate of Ranch Hand personnel is identical to our comparison group, and the Ranch Hand mortality rate is 58% that of the U.S. male white population!

In other words, we are pretty damn healthy when compared to the majority. The Ranch Hand Veteran can take pride in the knowledge that 97% of us participated in the medical questionnaire and 89% took part in the physical examination in Houston. Our response far exceeded the expectations of the Air Force and scientists managing the study and necessitated the extension of both contracts to accommodate our participation. WELL DONE COWBOYS!

As one retired veteran of "The Ranch" expressed it: "This was simply an extension of my military service." Nicely stated, I'd say. Good work guys!

Note: Additional scientific data from the Ranch Hand II Study will be provided as it becomes available.

### The 1982 Reunion:

Kathy Spivey receives the Good Sport Award. She tore a ligament, while in a sober state, getting off the boat Friday night. She hung in there for the rest of the weekend in spite of cast and crutches.

The banquet at the Holiday Inn was superb and "guest speaker" Wally Knight was only outdone by the roar of the rest of us. If you have planned to attend a "Gathering of Eagles" some day, don't procrastinate.

Special thanks must be given to Clay Ridgeway, owner of the Beachmark Inn. He and his staff helped to make the 1982 gathering a memorable event indeed.

## Ranch Hand Memorial

### PROPOSAL 4

Granite Column, Eagle and Plaque  
Grey granite column with chiselled surfaces. 2 ft sq at its base narrowing to 1 ft sq at the top and 8 ft in height. The eagle mounted on top is highly detailed measuring 3 ft wing span. The eagle's talons are clutching the bronze shapes of Vietnam and the Chinese symbol for purple. The plaque contains the story in brief of the C-123's operations in Vietnam.

Design and  
Sketch by Leon Furr

This memorial will cost approximately \$15,000.00. It is truly a work of art and will be placed in the Hurlburt Field Air Park near the C123 dedicated in 1981.

Our thanks to Fairchild Industries and its president E. G. Uhl for a \$500.00 donation toward the memorial.

To date we have \$1,800 in the memorial fund, with \$10,000 guaranteed by a major U. S. corporation, to be repaid by future contributions. Fairchild Industries, builder of the C123 Provider, donated \$500 toward construction. Our thanks go to Fairchild and President E. G. Uhl. The go-ahead for construction has been delayed until it is clear that we can cover the total obligation. Please make out checks to Ranch Hand Vietnam

"Dito Jr." is an All-American football player.

WALLY KNIGHT, Green Bay, WI. Wally ("Bad Knight"), VN 68-69, became a grandfather the last day of 1981 - a boy! Congrats Wally!

CLAIBORNE (BUTCH) COBB, VN 67-69, Richmond, VA. Butch was happy to learn about the Association of Old Rancheros. A group of, in his words, "the best Squadron, men and duty of my short Air Force career". Butch helped to keep the tanks full while at Bien Hoa.

WILLIAM JOHNSON, Maple Grove, MN. Bill served as Crew Chief on "Patches" during his tour in Vietnam in 1963. Bill may or may not know that Patches is retired and is in the Air Force Museum at Wright Patterson AFB, OH. A well deserved place of honor for a former punctured Provider.

HERB WOODCOCK, Greenland, NH. Herb retired in '81 after 30 years and is in the process of starting a photography business. While recuperating from a hernia operation in Oct 81, he went through his Ranch diary for Paul Cecil's history project and sent along some valuable information he had not looked at in thirteen years.

JOHN RICHMOND, John and Lois sold their house in rural north FL and spent some time nomading, with sights on the Patrick AFB area.

GEORGE ADAMS, Satellite Beach, FL. George is up to his "\_\_\_" in alligators and work. Work consists of honchoing the completion of the Eastern Test Range O & M contract for F4 83-88. That's enough to drive anyone up the wall, and out of the reach of the gators!

GERALD WHEELER, Fair Oaks, CA. Gerald is a "struggling" owner/operator, pulling boats from coast to coast on an 18 wheeler. Good to hear from you Gerald.

JOE POTTER, N. Easton, MA ('66). Joe is with the Polaroid Corp. in the K & D Tech Section. Thanks Joe. Sorry we don't have any patches. Will work on it.

ED KRAFT, Lancaster, PA. Ed was grounded about a year ago and has been transferred to Def. Personnel Support Center in Philly as a procurement manager.

ED BLAUFISS, Boston, MA. Ed is still flying with American out of Logan and, like others in the airlines, voiced concern about the physical and the possible effects on their future careers. An "untended medical problem" could seriously effect one's future - not just the current job! Thanks Ed.

MAJ. LARRY HANFLAND. Larry's on the road again. This time to SAC HQS. Ugh!

COL. T.O. WILLIAMS is on a dusty road - this time as Chief of the Office of Military Cooperation in the Sudan.

HAROLD LUKE, Mountain Home, AR. Luke astounded the American Medical community when they learned that he didn't have a kidney!

ROLAND MILES, Friendship, NY. I lost Roland's letter - sorry about that! How about another one Roland?

SPC A. W. MIKE MICHEL, Gatesville, TX ('66-'67). After VN and getting out of the AF, Mike traveled a lot before settling in TX. He is now working full time for the TX National Guard.

STANLEY VECHIEL, Mt. Holly, NJ. Stan is an aircraft mechanic at the local airport and Kimiko works part time. They both enjoy fishing in their spare time.

DAVE STOCKTON, San Diego, CA. Dave is running a delivery business in San Diego.

JOE BOYER, Pineville, LA  
THOMAS A. STEVENSON, Reston, VA  
HOWARD F. BOWLES, Camp Springs, MD

This is where I should apologize first for the delay in getting out a newsletter and keeping you all advised of news from cowboys, and the probability that I may have failed to mention someone's letter and/or contribution. Hopefully I'll be more consistent in the future. Keep the cards and letters coming guys!

## General Fund

The Association currently has \$1,178.76 in the general fund, before the cost of this newsletter. This newsletter will cost approximately \$450 to reproduce and mail. Contributions keep it happening. We need everyone's help, however small.

## Closing

The controversy over the safety of the herbicide 24D/245T continues today inspite of virtually no scientific evidence to suggest a health hazard to humans resulting from its use.

Over 3,000 scientific papers on phenoxy herbicides support their safety, however, some veterans have been led to believe that their current health problems are due to SEA and herbicides. Because of their doubts, each of us was asked to "Saddle Up Again" and volunteer a small amount of our time, for science. Each of us has gained in the knowledge that our unique background and the scientific examination of the same is aiding our nation's scientific community.

The controversy concerning the herbicide 24D/245T can be finally settled only by continuing valid scientific research. The Ranch Hand II Study, designed and managed by the USAF School of Aerospace Medicine, is just such a study. It is unprecedented in scope. It is the boldest epidemiology study, dealing with the Vietnam experience, ever undertaken by our nation's scientific community. Each member of Operation Ranch Hand can take pride in knowing that his participation and personal involvement will benefit each and every American.

I sincerely believe that our response to the Ranch Hand II Study clearly shows that the vast majority of America's Veterans of all wars still believe in the fundamental ideals enkindled by the phrase: "Duty, Honor, Country".

That's it for now. Keep the news coming in. Plan for October '83!

To the Ranch,

Dear Mr. Spey

Preliminary reports on the Ranch Hand epidemiological study will be released in the next few months. The participation of the Ranch Hand members in this study has been very gratifying. Of the 1,198 eligible Ranch Hand members, 1,173 participated in the questionnaire phase of the study and 1,045 participated in the physical examination phase. This outstanding response exceeded even our optimistic expectations. Much of the success for the enthusiastic cooperation is due to you and your organization. I am very appreciative of the support you and the other Ranch Hand members have given this very important project.

I thank you all for another "mission" well done!

To date: 1) General Fund \$ 991.47  
2) Memorial Fund \$2,365.91

For the past seventeen years, the veterans of the Ranch have gathered annually and stayed in touch because of the Association, but the Association spends money to achieve these goals. That money comes from each of us through tax exempt contributions. Each newsletter costs approximately \$450 to print and mail. The March newsletter lost money so we are reluctant but compelled to ask for additional donations, regardless of size, to ensure that the work started long ago continues. Please make your check payable to: Ranch Hand Vietnam Association

I continue to believe that our efforts in the past and more recently reflect the feelings and beliefs of the majority.

Thats it for now. Keep the news coming in, plan for 14 October.

To the Ranch,
