February 1988

Dear Rancheros:

The 1987 gathering of the World's Greatest Aerial Dispensers of Dandy Defoliants was a super get-together this past October. This year we were honored to have Lt. Gen. Claudius (Bud) Watts (RM 1968), Comptroller of the Air Force, join us for the Friday evening luau. Gen. Watts saw many of his past compatriots of the Ranch and everyone sure enjoyed seeing him again.

Col. Alvin Young, Executive Office of the President, was the guest speaker Saturday night. Col. Young's immense background in herbicides, and the health effects associated with such chemicals, is well known and respected in the world's scientific community. Dr. Young outlined the great amount of study and investigation currently underway into the controversy concerning herbicide Orange, and the great importance placed on the Air Force Health Study of Ranch Hand personnel and their comparison group. The A.F. study, by all scientific measures, is the hallmark investigation seeking an answer to two extremely important questions. Did the mission of Operation Ranch Hand do harm to the health of those performing that mission? Did the mission performed by Operation Ranch Hand harm the health of those on the ground? The answer to both questions continues to be NO! And for you and me, that's good news.

Another distinguished guest, Col/Dr. William Wolf, Chief of Epidemiology, School of Aerospace Medicine, Brooks AFB, TX, briefed us on the latest results of the second morbidity study (current state of health). The current state of health of Ranch Hand veterans and the Ranch Hand morbidity rate is essentially the same as our comparison group. There is no indication that our health has been adversely affected by the mission we so proudly accomplished.

Those attending the 1987 (22nd Annual) gathering were:

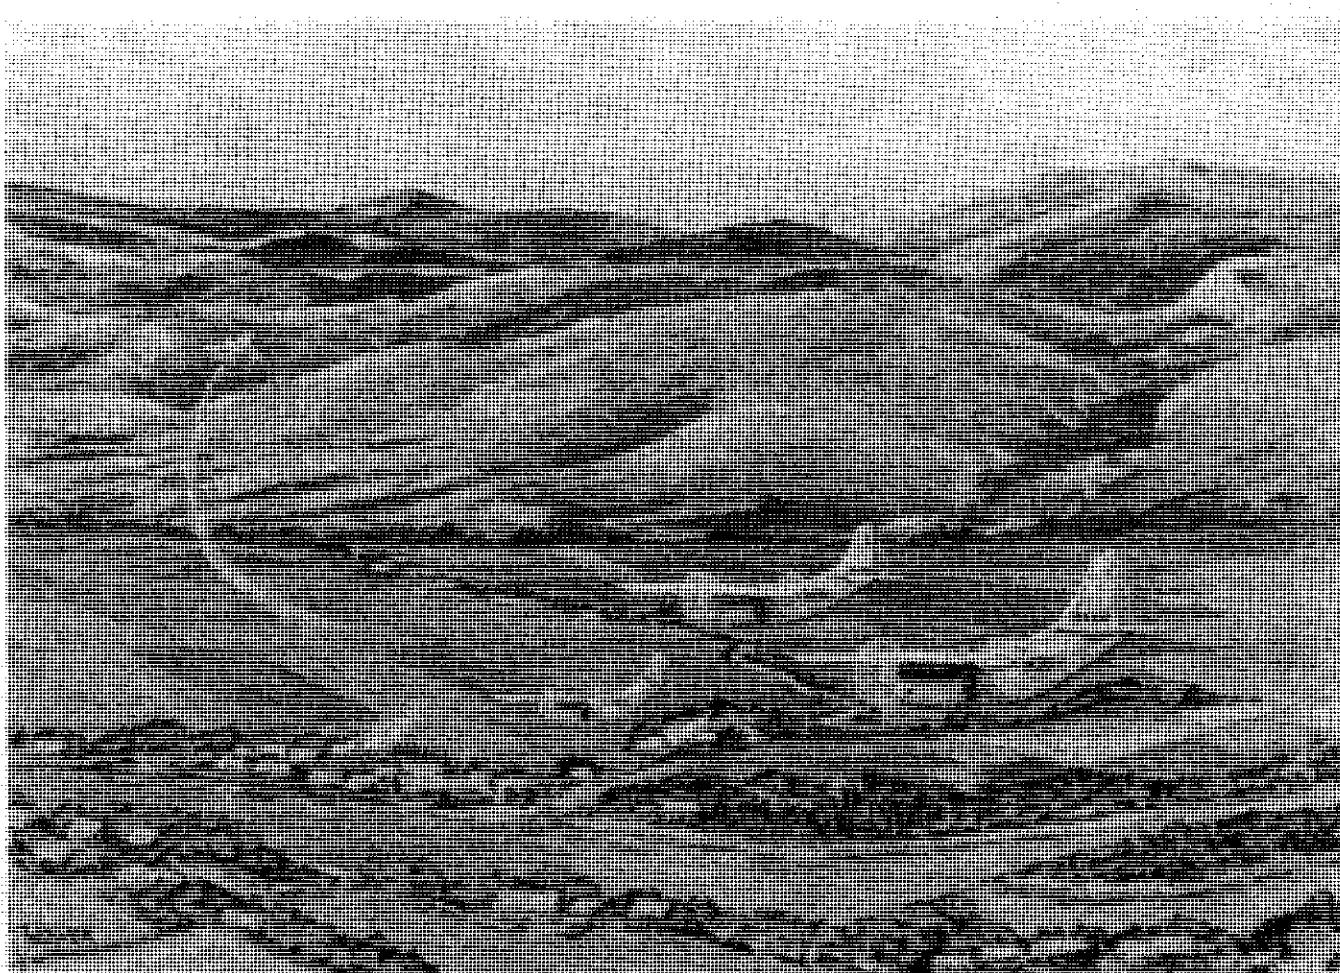

Bill Aldrich
John & Betty Brady
Jack Brennecke
Earle & Kate Briggs
Paul Cecil

Air Force Museum:

On 16 December 1987, the United States of America accepted as a gift by the Ranch Hand Vietnam Association a painting by L/Col. Doc Weaver entitled "An Lao Valley - 1965". This magnificent acrylic measures 20" x 30" and depicts three aircraft in the final descent, just prior to "Spray On", with an F100 providing suppression fire. It is truly a beautiful work of art and captures a special moment during a Ranch Hand mission. All our thanks go to Lt. Col. R. C. Doc Weaver of Santa Fe, NM for this great work. We all look forward to seeing "An Lao Valley - 1965" in person at the Air Force Museum at Wright-Patterson AFB.

Wright-Patterson AFB, OH:

Earlier this year the Association had considered a get-together at Wright-Patterson AFB for the official dedication of the new building at the Air Force Museum. It was also hoped that "Patches" (C123 #362) would be inside that building.

Due to many different circumstances the official opening will be low-key and the date of President Reagan's appearance is still to be set; and Patches will remain outside. For these reasons the Association plans no official presence at the dedication; however, those wishing to attend, please call Linda Smith, W/P Public Relations (513-255-4704 X3286) for the latest itinerary. The dedication date is currently planned for 30 April 1988.

General Fund:

The Association currently has \$1,050 in the general fund, thanks to the many who contributed so well last fall. A newsletter costs approximately \$450. Keep the contributions coming in.

Memorial Fund:

There is currently \$8,200 in the memorial fund, leaving \$1,800 still due on the construction loan for the Ranch Hand Memorial. The Association hopes to retire this debt by the year's end. Please keep this in mind.

Ranch Hand Coffee Mugs/Beer Steins:

Pete Spivey can order for us very handsome Ranch Hand mugs or steins. Write Pete at 2524 Jennifer Terrace, Palm Harbor, FL 33685 (813-784-9681). Some of us still owe Pete money from orders placed last fall. Please pay up Cowboys!

Ranch Hand Patches:

Ranch Hand patches are available at \$5.50 each. Send your money and order to yours truly. Profits will go to the Memorial Fund.

News of Cowboys Around the World:

Ed Blaufuss, Irving, TX: Ed, who is normally a regular at reunions, moved "up" to new equipment with American Airlines and became junior on the bidding system.

Change of address for Linwood L. Wright - to Omaha, NE.

When you see a formation of great aircraft - "at ready" - often forgotten are the men who kept them ready! The airmen with the knowledge and the wrench made it happen. Operation Ranch Hand could not have experienced the success it achieved without the dedication and hard work of those men.

As the years go by, even Cowboys will pass on to that great round-up
in the sky.

Mike Devlin, 31 August 1986

Norman Baker, 6 March 1987

Col. Marry Lemly, 1987

Mal Luke, 26 November 1987

John P. Richmond, 13 December 1987

As you all know, John Richmond had been the Association Secretary for a number of years and had attended reunions very regularly. After the 1987 reunion John was enroute home to NC when he became suddenly ill in Atlanta. After emergency surgery John suffered a massive stroke and passed away. John's funeral was with full honors at Arlington National Cemetery with many friends and family in attendance. The Association was represented by Lt. General "Bud" Watts, Comptroller of the Air Force. John will be sorely missed, as will all Rancheros who leave us. Lois Richmond sent the following: "John was so proud to be a Ranch Hand - one of many who dedicated their lives to their country. I shall always consider myself a Ranchero..."

Well Cowboys, that's all from the corral for now. Keep the cards and letters (and donations) coming in. I would like to close with words from Ted Encke of Pittsburg, PA:

"Poor is the nation that has no heroes; shameful that nation, which having them -- forgets."

Dear Fellow Rancheros & Friends of the Ranch:

For the past 23 years, men of Operation Ranch Hand have gathered annually to stand proud -- proud of our mission in Vietnam and proud of the comradery born of that mission. We served with pride then, and today we again serve this great nation with that same dedication. Our continuing service is our participation in the Air Force Health Study. For this most recent service we have received additional praise. During the Vietnam conflict our efforts were applauded, and for the past eight years our efforts have again been applauded. Thank you Cowboys, one and all!

Memorial Fund:

In 1981, the Ranch Hand Vietnam Association took on a mission to have a memorial constructed to honor the men who lost their lives while conducting our mission in SEA. Thanks to the generous contributions from our group and an interest-free construction loan, the Eagle stands proudly in the Air Park at Hurlburt Field, FL, with the names of our comrades inscribed on the granite base. In 1986 the memorial was completed. And, indeed, she stands proud!

To date the Ranch Hand Memorial Fund has \$8,371.83 in its account, leaving a balance due of \$1,628.17. The Association is hopeful that this debt can be retired this year. When you remember "the Ranch", please remember the Memorial Fund.

"Poor is the nation that has no heroes -- shameful that nation which having them, forgets."
(Ted Encke)

A formation like this doesn't just happen! The often unsung men who bend the wrench and provide all the other elements to keep an airplane flying made this picture possible.
