Mr. Jack Spey
850 Tarpon
Ft. Walton Beach, FL 32548

Dear Mr. Spey:

We recently met with the former President of your Association, Mr. Charlie Hubbs. As you know, the Veterans Administration has been working diligently to resolve the many complex problems associated with the human health effects of the spraying of herbicides in Viet Nam and Charlie is very knowledgeable on this subject.

During our meeting Charlie suggested that we keep you informed of our program and we agree. Therefore, we will be sending you an information package and will continue to provide you with new data as it becomes available to us.

We would appreciate hearing your thoughts on this matter. We are looking forward to a cordial relationship.

Sincerely,

A handwritten signature in cursive ink that appears to read "Paul Haber".

PAUL A. L. HABER, M.D.
Associate Chief Medical Director
for Professional Services
