Sirs:

If possible, I would like to know the availability status and current security classification of the following documents. These documents are all referenced in the footnotes of:

US Department of the Air Force. Pacific Air Forces.
"Herbicide Operations in Southeast Asia, July 1961-June 1967," by
Charles V. Collins. Project CHECO Report No. DTEC-67-0020.
NTIS Document AD-779 796.

Since I expect to make another research trip to Maxwell this fall, it would help me if you could provide the AFSHRC reference number for any of these documents in your possession.

"Herbicide Operations in the Republic of Vietnam, undated." (fn. 2)

"TAC Aerial Spray Flight Operations in Southeast Asia, 1961-1964, undated." (fn. 3)

"Report, Evaluation of Crop Destruction in RVN, 1 July 1966." (fn. 32)

"Report, Defoliation Operations in Laos, 1 January 1966." (fn. 68)

"Final Report of the Operational Evaluation of Project Pink Rose, 5 May 1967." (fn. 102)

"MACCOC Directive Number 525-1, Herbicide Operations, 15 February 1966." (fn. 117)

"Minutes of Southeast Asia Herbicide Meeting, 5, 6, 7 April 1967." (fn. 138)

Thank you very much for your time and trouble.

Sincerely,

Paul F. Cecil

Sirs:

Request that you initiate review of the below listed study for security declassification in accordance with current directives. The purpose of this declassification request is to allow me to obtain the loan of a copy of this study through the University Interlibrary Loan program as part of my study of the history of herbicide operations in Southeast Asia. I presently have a USAF authorization for access to classified historical documents, but would find it inconvenient to travel to Carlisle Barracks, or to Maxwell AFB, which also has a copy of the study.

I should like to call your attention to the fact that similar studies on this subject, written in the same time period, have been declassified by both the Air University and the Naval Postgraduate School. I understand that the below listed study contains comparable material, the release of which would not compromise national security.

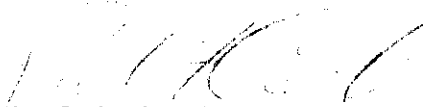

Bass, Simpson H., Jr.

"Chemical Herbicides--A New Dimension in Chemical Operations."

Carlisle Barracks, PA; Army War College, Study, 13 February 1969.

Thank you for your cooperation and your trouble.

Respectfully,

Paul F. Cecil
Lt. Col., USAF(Ret)
