COPYRIGHT. U. S. copyright law governs the reproduction of copyrighted material. Under certain specified conditions, libraries and archives are authorized to furnish copies. One of these is that the copy is not to be "used for any purpose other than private study, scholarship, or research." If a user requests or later uses a copy for purposes in excess of "fair use," that user may be liable for copyright infringement. This institution reserves the right to refuse a copying order which would, in its judgement, involve a violation of copyright law. The effect of the law is to extend full statutory protection to what was traditionally known as "literary property right" or "common law copyright." Users are responsible for determining the copyright status of materials used and, where appropriate, securing the permission of copyright holders prior to publication in excess of fair use. Specific questions should be addressed to the reference archivist on duty.
