Dear Mr. Paszek:

I would appreciate it if you could advise me of the status of the defoliation study by Capt. Buckingham. When I originally wrote you on this subject in April 1979, it was estimated to have a publishing date of late that year or in 1980. Recently, while in Houston, I checked at the Government Book Store there and they had no information on the volume.

I picked up some excellent oral history material at the recent "Ranch Hand" reunion in Florida and also got General Meyers' briefing on the "Agent Orange" medical evaluation program. I still expect to finish my study by next summer, but would like to see the Buckingham volume before I get into the final drafts. I have my fingers crossed that I am not duplicating his work!

Thank you for any information you can give me,

Sincerely,

Paul F. Cecil

PC/bac

*Still in working stage.  
Will not be published for at least  
another year and a half.*
