Alpha Lift

Primary was cancelled due to report received from III DASC which stated a ceiling of 200 overcast. (3-20-10-66)

Alternate was cancelled due to report received from III DASC which stated a wind of from 10 - 20 knots. (2-2-2-66)

Weather for tertiary was reported as acceptable so briefed 17 Line and departed for target area. Arrival at tgt ~~area~~ and talked with FAC resulted in tertiary tgt cancellation due to low broken cloud layer. (3-2-3-66)

At this time a FAC from the original primary tgt broke on Freq and stated Primary was clear. As primary and alternate had already been cancelled with TACC, lead A/C did not have charts of that area available and made decision not to try to run tgt without proper charts.

Flight was cancelled and RTB 73

MAJ ANDERSON.

G-P-4

Hotel

Moderate to severe turbulence with 20-30K winds in Pri target as reported by FAC Trail 66. FAC advised that target had been OK untill sunrise then rapidly deteriorated. Unable to go to Alt target due to time enroute, fuel, and lack of play time for fighters.

India

Fighters had only 5 min play time when we were finally able to contact FAC. We were 25 min late to target due runway change and taxi traffic tie up. Last minute target changes were not coordinated with FAC. FAC was not the FAC II DASC said would be there for changed Tert. target. Elliot 10 was on original Pri target. Never could contact Herb FAC. We did not have fuel to wait 45 min for more fighters.
