Sr., Ph.D.

The Significance of Indirect Contact in Fixed-Wing Sprayed Areas: Alvin L. Young,
Ph.D.

Summary and Conclusions: John F. Guilmartin, Jr., Ph.D.

Gentlemen, here are the slightly changed session titles submitted to Texas Tech and I appreciate your reasoned input and your patience. I hope this will give attendees a clear idea of what we will discuss, although that won't necessarily limit what they want to question. Will let you know as soon as I hear what the time and day of our session is. Thank you, Paul :o
