

This is a listing of US and allied places and names in the RVN AO. The data are from (CO)AAR's, ORLL's, Staff Journals, and other documents mostly available online. Firebase or LZ? If I can document arty on the ground, I call it a firebase. Lat/Long coordinates are datum WGS84. Numerals in blue underline after the text are hyperlinks to online resources, simply click to launch your web browser at that address. Character strings in italic-underline beginning with AD are report numbers from [Defense Technical Information Center](#) or [National Technical Information Service](#). Not every name has a separate line entry—some are only in the notes. If you can't find something, try a search/find or check [Don 'SGT Snuffy' Smith's](#) very comprehensive list before you quit. This document is an ongoing effort and is current as of **11/10/14**.

These locales and more are available as a .kml file, viewable in GoogleEarth, a free application showing these points and more plotted on the globe. I can make this file available to anyone interested and help with its use if needed.

Feedback regarding additions, corrections, and commentary relating to particular sites is welcome.

Bill Kindred

198bgde@comcast.net

Legend*: **AF**-Airfield, **AP**-Artillery Position, **Bw**-Brownwater Navy, **Cp**-Checkpoint, **CP**-Command Post, **FB**-Fire (Support) (Support Patrol) Base, **Hp**-Helipad, **HQ**-Headquarters, **LZ**-Landing Zone, **OP**-Observation Post, **Op**-Outpost, **PB**-Patrol Base.
