

## DAY - TIME

BY BOB DAY

Last Friday and Saturday was "the fellow who always pays" weekend at the State U. and from all reports every Pop really had a good time. All of the local spots were filled to the brim with Dads seeing what their sons and daughters do for recreation on the well-known State U weekend. Some of the Dads probably couldn't keep up with the sons and daughters, but as was more often the case, the older boys put in a good showing, and it was the kids who found it hard to keep up. It was a lot of fun, and we should have Dad's Day more often. Ed. note: Were you lucky enough to hit him for a little extra dough when he was down?

The senior Field Artillery Students were rather embarrassed at the Caisson Club pledging when the Junior pledges over-powered them and had things their own way.... Ray Attie, Skull, is again in circulation after having gotten his pin back from Betty Bolens.....Chuck Hawkins, Delt has switched leagues, and is now dating Toddy Norlin, Theta prom queen entrant, and a promising one at that.....Take a look at the Heather ad this week readers, and get the low down on the new addition..... It seems that Carl Ball, Perry Huey, and Chuck Cross are crashing the football games via the air method. All three of them are pilots and flew in formation over the stadium watching the football game..... John Warren, Kappa Sig back this weekend, and he reports that he is still out of the army and working hard.....It seems that the Sig Chis from other chapters who visit the campus for the weekend stay at other houses...Where is all of the hospitality?.....For a drink that is delicious and refreshing....Griesedieck Beer..... Idol Stith, Pifi pledge is really burning the midnight oil these days being up late enough to put through a 4:30 phone call to the DU house Saturday night or rather Sunday morning. Do you still think the Illinois boys are not so smooth?.....Mary Louise Murphy, Theta out with one of Uncle Sams boys. She even went over to get him. Let's hope that he isn't AWOL.....For a good time anytime....Jimmie Barker's Classic Cafe.....Ed Ashdown, Phi Delt has finally settled down with Liz Lewis Pifi. It seems that he met her father this weekend, and is taking Liz home next week to meet his.....Jimmie Spencer, Alpha Chi is now wearing a diamond that is really a beauty. We didn't know that they grew them that big.....Chuck Wurmstedt, DKE has switched from Virginia Hedges, Theta transfer to another Theta transfer, Paula Bliss..... Don't forget Bid's Friday afternoon club, meet all of your friends there.....Jim Donovan and Jack Mott, Phid law students of last year arrived a little late for Homecoming last week getting here early Monday morning. They left Friday night, but didn't quite make it on time.... Tommie James, Skull will leave Nov 15 for the Naval Air Corps.....We wonder if Bob Blum, Theta Delt radio man has severed relation with Betty Mason a home town girl..... For the best steaks going, Twenty Taylor.....John Engle, Sig Ep leaves in February for the U.S. Naval Academy at Annapolis.....

# MAN of the Week

by  
**CHET GRAY**

One of the true "Fighting Illini" is the title given to Lavero "Liz" Astroth, our choice as Man of the Week. He's always in there fighting his heart out and never knowing when to quit, with only one purpose in mind and that is to bring a victory to Illinois.

Liz hails from Alton, Illinois where men are judges of women and football. However, Liz admitted that during football season he doesn't have as much time to spend with the opposite sex as he would like to. While on the subject of women we might also mention the name of Jean Thompson whom Liz went home to see this past week end and who is at the top of the 1-A list as far as he is concerned.

When we get to the athletic side of Liz's life is when we really get into high gear. But, lets start

way back in high school. Three letters in football, three letters in baseball, and three letters in basketball. And that is really going places in a hurry.

Then after graduation Liz had a talk with Doug Mills and he decided to continue his education at Illinois. His freshman year here he earned numerals in football, basketball, and baseball. His second year he slipped a little and only received letters in football and baseball. This same line of letters continued on into his third year with Liz making a good showing of himself in both sports. However, this has only been more or less of a proving ground for his Senior year of varsity competition.

This, his last year at Illinois started with him being made acting Captain in the Miami Notre Dame, and the Iowa games. Even though we lost these games Liz as usual played a bang-up ballgame and was in the thick of it at all times

Leaving the realm of football into Liz's other athletic department, baseball, we find that he is going to be the captain for this coming year. Liz stated that with the additions from last years freshmen Illinois should put on the field another championship club.

# WOMAN of the Week

by  
**RUTH MEYER**

Born in Banes beneath a Cuba moon, Sue Karstetter is one of the lovelier 1942 editions of Illini coeds. She is now the dating property of Bill Schnell, for she accepted the Zeta Psi pin last Tuesday---too bad, fellows, but history has been known to repeat itself.

Last summer Sue held a position on the college shop staff of St. Louis' Vandervoort department store. Definitely interested in styles, Sue has designs on fashion advertising after she graduates in June.

Her probable place of employment will be New York, where she has an uncle interested in the same field. (Statistics show that a large percentage of destined career girls are waylaid by wedding bells.... could be).

Sue signed the University registration list last year, enrolling in the Journalism School. For her first two years she attended Cotter College in Nevada, Missouri. The reason for going to this female seminary was a scholarship, later she changed her mind, as women consistently do, and came to Illinois.

During her junior year Sue was elected as social chairman of Silver Feathers and also was a member of Foreign Student and Doll Show committees in the Y. W. C. A. Because of the time these activities and a forgotten spring romance took from her study schedule, Sue plans to concentrate her efforts on the books this season.

Plain simple lines in clothes, frillless classics, conservative to the last buttonhole are Sue's choice for smart lines. Her dancing? Ask Bill about her ability. As for her "preferability", Sue likes smoothness for dreamy waltzes and peppy jitterbugging for jive. In fact dancing is her favorite preoccupation aside from the Zeta Psi feature now showing.

Attractive, active, able Sue Karstetter of Presby Hall is, but definitely an A-1 contribution to Illini femininity.

## MORE OR *Less*

Well, we lost another football game. The game with Iowa loomed to be our only chance for victory against a major team on the '41 schedule.... at least that is what a small minority had doped out. And then, there were the few that knew definitely that the one time "Fighting - Illini" didn't have a ghost of a chance. Perhaps if one would ask these undisclosed few they could tell you just why Worban quit. Why Wallin quit? And why the three All-State freshmen players from Michigan returned to their state Alma-Mater? It is rumored that before the season is over that several others will turn in their uniforms. Now if that is team spirit -- no wonder we lose all of the games! Who is to blame? Take just one guess and you will probably hit the nail on the head.

Found in the soup..... Marion Hinze, AOPi pledge, took the ATO pin of Dick Hahn. Congratulations ! .....Francine Ames, Chicago Theater Ballet, in town to see the man, Julius "Jack" Kuney, in 7th Heaven with Mama Kuney as chaperon..... call that "easy to remember" phone number 4444 for prompt service and cleaning satisfaction by Bresee Bros. Mel Kurlander, PEP, is working up a Kappa interest as once did Jim Buhai, ZPT..... Shirley Hopp, Tri Delt, and Paul Dean, Lambda Chi, down for the Illini tennis reunion..... try a bottle of Sterling Beer today ! You'll enjoy it with every swallow..... Georgia Moon, Pi Phi, and Shady Brady, Sig Nu, movie-ing it Sunday art'..... If in need of a date don't call 5271 since, of 13 tall Betas, 9 are reputed either pinned or going steady while the other 4 have preferred A Xi D date calenders - where do they all hide themselves ?..... Chet Gray with Viola Sharkey, Alpha Gam, and Marion Shepard, KKG, with Bob Grant, at Kappa Sig night at the 608 Club.....
