

0930 - 11 NOV
OFFICE OF THE CHAIRMAN

Joint Chiefs of Staff

22 October 1971

MEMO TO: General Knowles

MINN

Mr. John McMahon, Boeing Company, called from Philadelphia to ask if you would be interested in having them present a 30-45 minute briefing for you on "Army Utility Tactical Transport Aerial System." He said they are working with the Army on this and are one of the competitors. If you would like to hear the briefing it could be given in your office or wherever you might like.

He said he realized you were rather divorced from the Army in your present job, but knew of your interest in aviation.

I told him I would let him know your response.

Mr. Goodland ✓

BOEING CO.

FIRM 10/29

me.
Yes, at convenient time.
