Dear Dick

9 Dec 69

Can't we help "poor"
Jack - let's give
him a company
to work with - now
that parachutes
are out of date!

I hope to see you
soon - regard Harry

Major General John D. Kane Jr.
CG 82nd Airborne
Ft. Bragg.

Dear Harry -

Many thanks for the watch band
calendars. I find them very useful.

We don't have any of your birds
here so we get very little training
with them. During our last Division

maneuver I was able to get two
of them from Fort Benning. The

artillery was lifted several times
which helped their training and

I used them to supplement the
UH-1D lift in some airborne assaults.

We have had as many as

five of them here. For a couple of air
firepower demonstrations we put on for
Strike Command. This helped a little but
the training was necessarily confined
to those units participating in the
demonstration.

If your travels bring you this way
bring your golf clubs.

Best wishes for Christmas
and the New Year

Jack
