12 April

Dear General Knowles -

Thanks very much for what you said in that back-channel, and for sending it. It has definitely been a long haul. Weather, aircraft standdowns & restrictions, shortages, busy job, etc. Feel I've had a good course. We've been through a lot of stuff - to include ridge line & pinnacle lookings on these hills & mountains with this crazy wind, and hours of night & day skid-in power off annotations. Plus all the rest, to include about 60 hours in the H-23. What a beast.

Great duty here. Plenty of action & a lot to swing at. Especially, as you know, these days.

Gen. Michaelis has told me that he will move me to C/S in May when Gen.

Beverley leaves. This is good news to me. He is a tremendous commander, and I like working for him very much.

After my service here I am still hoping to get back to Vietnam to a fighting job.

Talked to Lt. Col. Gordon Moore recently & got caught up on OPS. I am surprised at your lengthy stay there, and still expect news of a Corps Command job any time.

All best.

With respect,  
Hol
