

26 September 1974

Sir,

It has already been two months since you departed Korea. I hope you are enjoying your new life in the States.

I am still in the same position in the DC6's office with Min Dillon and Sp Kessel. Major Thudium is now working at the Military Armistice Commission, UNC.

We are lucky that your old staffs are still in close relationships being located near each other here in Seoul, except you.

You must believe that all of your staffs are always missing you.

As to the future plan of myself, if you don't mind of my mentioning it, I like to make an end of my 17 year of Army life whenever any good chance for civilian job comes to me in the near future.

As you well know, we are now in the best season of a year with blue high sky and mild fresh air which is particularly good for the golfers like you.

And I cannot finish my letter without extending my applauding congratulations to you for your last decorations in the Army with the Distinguished Flying Cross, for which we again admire you more than anybody else.

I am enclosing the album of pictures which were taken during your farewell visits to Korean dignitaries.

Sir, I will appreciate for any bit of your good news and wish you for good health and success all the time.

Most sincerely,

CHANG BYONG OK  
Major, ROK Army  
off of DCE, EUSA
