Dr. John William Taylor
Department of Epidemiology and International Health
University of Washington
Seattle, Washington 98105

Dear Dr. Taylor:

Thank you very much for alerting me to your views on
the possibility of our being reinvolved in South Vietnam.

During the last session of Congress, I consistently
voted to reduce funds earmarked for Southeast Asia and I
will not vote for or support additional military aid to
South Vietnam now. I believe that it is in the best interests
of the United States to reduce, not increase, our involvement
in this situation.

With best wishes,

Sincerely,

Joel Pritchard
Member of Congress
