

March 19, 1974

Gentlemen:

Subject: John William Taylor, M. D., SS No.: 18-11-44-429

The file folder of the above-named registrant is returned herewith, and it is directed that his classification be reopened and considered anew, in accordance with Chapter 625 of the Registrants Processing Manual.

The prior reopenings of Dr. Taylor's classification cancelled his order to report for induction; therefore, all evidence in Dr. Taylor's file folder must be considered including his claim for Conscientious Objection.

If Dr. Taylor's claim for Conscientious Objector status was previously considered, then a procedural error has been committed in that the reason for denial of the classification has not been documented in accordance with Chapter 623 of the RPM, and a reopening remains justified.

Sincerely,

FOR THE STATE DIRECTOR

Humphrey May, Jr.
LTC AOC
Deputy State Director
