

(25) 16 August 1972

Dear Pat:

With some trepidation but with hope for ultimate good I am sending you and Glen this intact copy of John's letter. I'm sure that John is sincere in his statement that he does not wish to pressure your return. His capabilities and his months of dedication render his observations worthy of consideration.

Both the MQH people and the KHF have understood and sympathized with you in the situation you find yourself. We have accepted your statement that you plan to return. Nevertheless the morale of both groups, if we are to survive, needs your active help, in MQH by communication, here by help with fund raising and developing closer relationships with Board members.

After you have had time to consider these communications I'm sure Glen and I would welcome the opportunity to spend an evening with you discussing the whole situation.

Sincere best wishes,

i.s. we are sending parts of John's letter to Board members.
