Minh-Quy Hospital  
Kontum  
September 4, 1972

To Province Chief.  
Dear Sir:

It has been brought to our attention that Kontum Province is in need of construction equipment for the rebuilding of the city. Minh-Quy Hospital owns a large-volume cement mixer that is serviceable, though in need of repairs.

I

In the spirit of cooperation in the very great tasks facing Kontum Province in the months ahead, the Montagnard and Western staff of Minh-Quy Hospital would like to donate this equipment to Kontum Province, for use as necessary. We only ask that the equipment be made available to us for future Minh-Quy construction projects.

I am looking forward to your response.

Sincerely yours,

John W. Taylor, M.D.  
Minh-Quy Hospital
