Dear Billy,

Many thanks for your ongoing and active interest in my Tet '68 battle history. I've written back to the men whose forms you forwarded and have heard from several others direct.

I'd like you to write or tape your account of the attacks on LZ Baldy in as much detail as you can muster, commenting on the impact it had on your brigade's thinking at the time -- and your thinking, of course.

Give me an idea how many forms to send for your mailing. I'll make some changes to better explain what it is I'm doing and looking for.

Eventually, I'll have hundreds of names and addresses of Tet '68 veterans for you to add to your rolls.

Let me hear from you!

Best,
