I am interested in obtaining detailed information about your own experiences during the 1968 Tet Offensive (January 30-April 1, 1968).

Descriptions of action are important, of course, but I also want to know about the little events of day-to-day life you experienced during Tet -- what you saw, heard, thought, and felt at the time.

You may tape your account on a standard-size cassette (please!) or write it out, whichever is easier.

If you know where I can reach any other Tet participants, please send me names and addresses or urge them to contact me.
