

This is a picture of the mementos I brought to Chicago. I left them at the wall a few days later.

There you have it gentlemen. I am committed to this project and will bring it to completion. I would like your support. I would like for you to be here to help Dedicate the memorial in July Of 2008.

Thank you for your time and please let me know what you think.

Later T.J

Tommy J. Skiens

Gentlemen

Please take the time to read the contents of this letter. I would welcome any comments or responses you would choose to send me. My computer skills are limited so please allow me some room if things don't look exactly as they should.

I started planning a project three years ago. The plan includes a dedication ceremony in July of 2008. That's the 40th anniversary of our tour in Asia. The project is a memorial to the Americal Div., The Old Guard, The Jungle Warriors and Task force Oregon. It will be located in the John Day Oregon city park.

Two years ago I asked a local artist to create a rendition of the ideas I have for this memorial. Here is what she came up with.

The items in this view are not to scale

There have been many improvements to this artists rendition based on available space, materials, logistical considerations and cost. I will talk you through the improvements so as to help develop a mental picture of what the memorial will look like when it is complete. I think it's going to look cool and impressive.

The schedule of events for this project is as follows:

2002----Received permission from the parks and recreation district to construct the memorial in the city park.

2003----Planted the tree and continued to research materials and talent pool for constructing the memorial.

2004----Will undertake phase one of construction. This will include the red brick, the Americal patch and the pad that will support the retaining wall around the tree plus two smaller pads that will serve as the base for the white triangles pictured in the photo.

2005----Will undertake phase two of construction. This phase will install the retaining wall around the tree. The retaining wall is special and unique, as I will explain later.

2006----Will undertake phase three of construction. This phase will construct and install the white triangles as well as the Task Force Oregon information bullets that will be imbedded in the red brick.

2008----dedicate the memorial in the presence of "YOU" (jungle warriors) and I hope a couple of spit and shine Old Guard boys from D.C. who look real cool and know how to spin there weapons and stuff.

I must now use one thousand words in place of a picture I don't have to help you form a mental image of what the memorial will look like. The color scheme is red, white and blue.

The outside measurement of the red brick is approx. 14'x14'

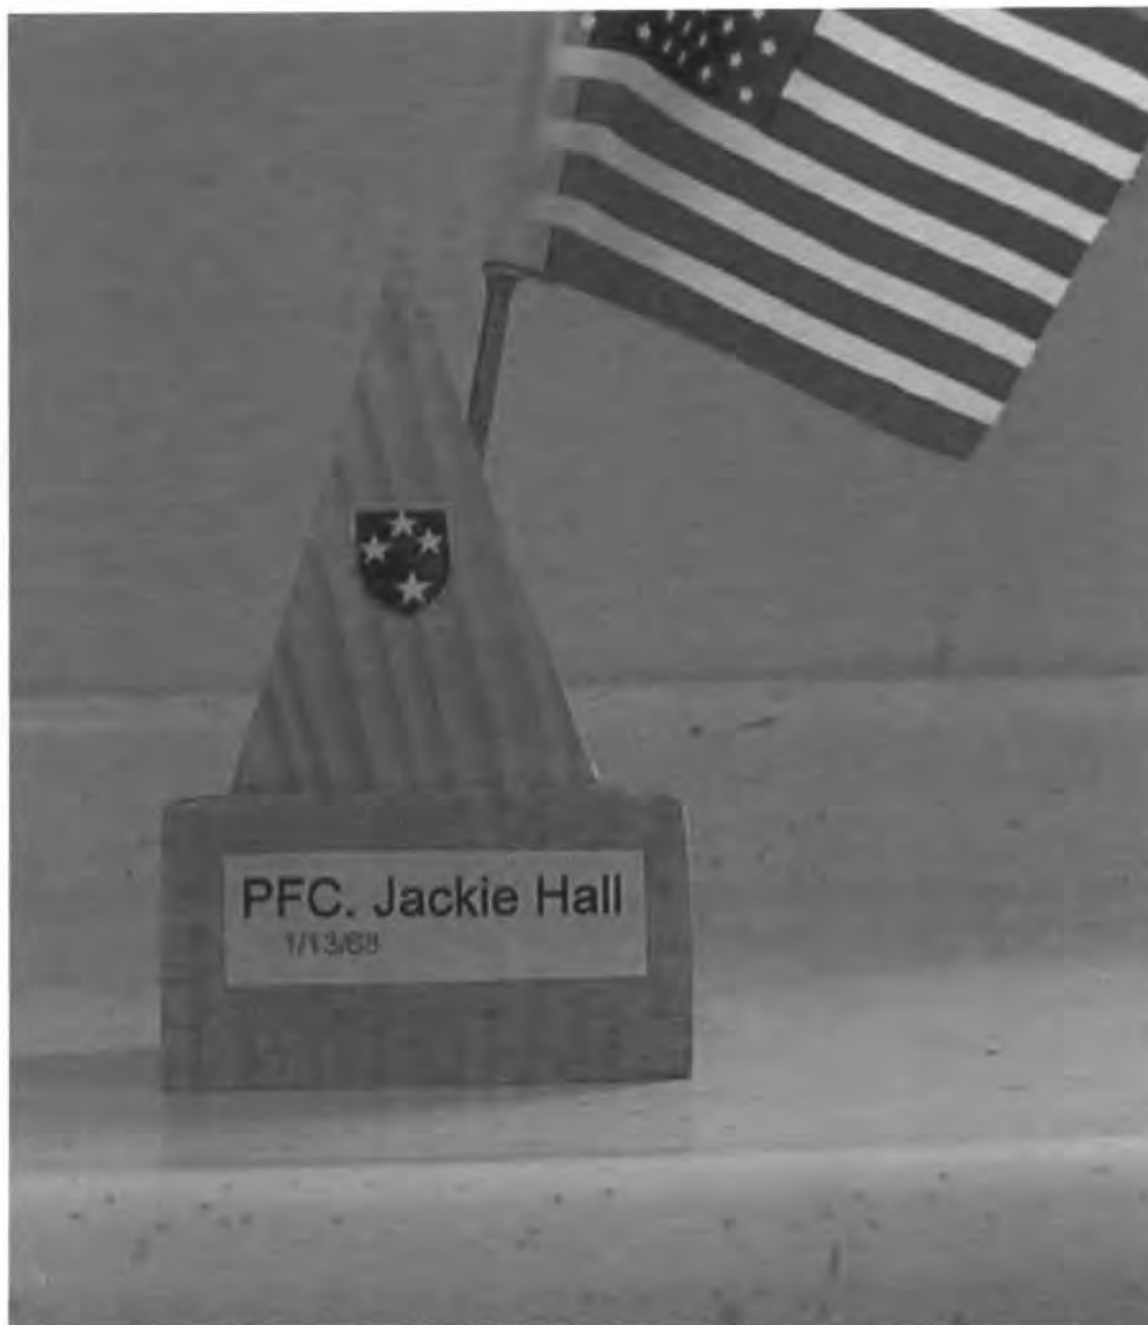

The Americal Div. Patch will measure approx. 10''x 8''.

The retaining wall around the tree will be approx. 30'' high. As you look at the front of the retaining wall you will see a light (infantry) blue background displaying the crossed rifles of the infantry. The rest of the retaining wall will be a stone version of the American flag complete with red and white stripes plus the 50 stars.

The snow-white triangles at the back of the monument will measure 3'x 3' at their base. They will be a giant copy of the mementos I had at the reunion in 2001. I will insert a picture below to remind you of their shape. This shape offers 12 flat surfaces on each monument where I plan to put the historical and informative information that will be the heart of the monument.

The left triangle will be dedicated to the Old Guard. It will host the unit crest, battle streamers, Medal of Honor recipients and a brief history.

The right triangle will be dedicated to the Jungle Warriors. It will host the unit patch, a brief history, and the presidential unit citation awarded our recon platoon in 1968 and some other things to help complete the package.

This is a picture of the mementos I brought to Chicago. I left them at the wall a few days later.

There you have it gentlemen. I am committed to this project and will bring it to completion. I would like your support. I would like for you to be here to help Dedicate the memorial in July Of 2008.
